Charts

Overview	5	The implications of the recent fall in stocks for the near-term growth outlook	26
1 GDP projection based on market interest rate expectations and £125 billion asset purchases	6	A Average contribution of stockbuilding to quarterly GDP growth in previous recessions	26
2 CPI inflation projection based on market interest rate expectations and £125 billion asset purchases	8	3 Output and supply	29
3 CPI inflation projection based on constant nominal interest rates at 0.5% and £125 billion asset purchases	8	3.1 Contributions to quarterly GDP growth	29
1 Money and asset prices	9	3.2 CIPS/Markit indicators of output growth	29
1.1 Bank Rate	9	3.3 Measures of capacity utilisation and four-quarter output growth	30
1.2 Money and nominal GDP	9	3.4 Impact of credit and finance on manufacturers' output and investment	30
1.3 Cumulative APF asset purchases by type	11	3.5 Corporate liquidations in England and Wales	30
1.4 Monthly changes in gilt holdings by sector	11	3.6 Flows into and out of claimant unemployment	31
1.5 Nominal spot gilt yields	12	3.7 Measures of employment	31
1.6 Property prices	12	3.8 GDP and employment	31
1.7 Three-month interbank rates and spreads relative to future expected policy rates	14	3.9 Cumulative changes in the economic activity rate	32
1.8 Contributions to growth in loans to UK private non-financial corporations (PNFCs)	14	3.10 Changes in economic activity rates by age	32
1.9 Contributions to growth in net secured lending to households	14	3.11 Air passenger flows between the United Kingdom and A8 countries	33
1.10 Debt issuance by UK PNFCs	15	4 Costs and prices	34
1.11 Investment-grade industrial sterling corporate bond yields and spreads	18	4.1 Contributions to CPI inflation	34
1.12 Housing market activity	19	4.2 Sterling oil prices and retail petrol prices	35
1.13 Quoted mortgage rates and Bank Rate	19	4.3 UK and euro-area agricultural output prices and the sterling-euro exchange rate	35
1.14 International equity prices	19	4.4 Measures of consumer and imported goods prices	35
1.15 Sterling exchange rates	20	4.5 Whole-economy earnings	36
1.16 Sterling ERI and Consensus expectations	20	4.6 Distribution of private sector wage settlements	36
Broad money	13	4.7 Sectoral changes in private sector AEI regular pay growth and output	36
A M4 and M4 excluding intermediate OFCs	13	4.8 Import prices and private sector AEI	37
B M4 excluding intermediate OFCs	13	4.9 Output prices and capacity utilisation	37
Monetary policy and asset purchases	16	4.10 UK wholesale gas prices	38
A Stylised transmission mechanism for asset purchases	17	4.11 CPI and households' inflation expectations for the year ahead, scaled to match CPI inflation	38
2 Demand	21	4.12 Measures of inflation expectations beyond a year ahead	39
2.1 World trade	21	5 Prospects for inflation	40
2.2 Survey indicators of global output	21	5.1 GDP projection based on market interest rate expectations and £125 billion asset purchases	41
2.3 IMF forecasts for GDP growth in 2009	23	5.2 Projected probabilities of GDP growth outturns in 2010 Q2 (central 90% of the distribution)	41
2.4 World trade and UK exports	24	5.3 CPI inflation projection based on market interest rate expectations and £125 billion asset purchases	42
2.5 Nominal demand	24	5.4 CPI inflation projection in February based on market interest rate expectations	42
2.6 Whole-economy stock level	25	5.5 GDP projection based on constant nominal interest rates at 0.5% and £125 billion asset purchases	42
2.7 Contributions to quarterly growth in consumer spending	25	5.6 CPI inflation projection based on constant nominal interest rates at 0.5% and £125 billion asset purchases	42
2.8 Household saving ratio	27	5.7 Projected probabilities of CPI inflation outturns in 2011 Q2 (central 90% of the distribution)	48
2.9 Contributions to four-quarter growth in whole-economy investment	28	5.8 Projected probabilities in February of CPI inflation outturns in 2011 Q2 (central 90% of the distribution)	48
2.10 Investment intentions (plant and machinery)	28		
What has driven the sharp fall in world trade?	22		
A World industrial production and world trade in goods	22		
B Size of the manufacturing sector and export growth in selected countries	23		
C UK net trade	23		

5.9	Frequency distribution of CPI inflation based on market interest rate expectations and £125 billion asset purchases	48
5.10	Frequency distribution of GDP growth based on market interest rate expectations and £125 billion asset purchases	48
	Other forecasters' expectations	49
A	Distribution of GDP growth central projections one year ahead	49
B	Other forecasters' probability distributions for CPI inflation	49
