(a) Data in **bold italics** are where the current estimate of the change differs by more than 0.2 per cent of the underlying level or the growth rate differs by 0.2 percentage points or more from the most recent published estimate. Further details on revisions are available in the internet version of this release.

(b) In order to bring reporting in line with the National Accounts, housing associations were reclassified from non-profit institutions serving households under the household sector to non-financial corporations other than public corporations during August 2005. The movement has been adjusted out of the flows data for August.
