Mr Freshfield's  
Report on Geo.  
Meyer's Deed

Objections  
thereto.

Mr Freshfield also reported that he had perused 4 Deeds for carrying into effect the Arrangement between Mr George Meyer & his creditors - according to which the property of Meyer & Hazard and Meyer alone, was to form one Estate, to be vested in Mr Benj: Wood, S<sup>r</sup> Marg<sup>t</sup>: Hill - Mr Charles Ogilby Salvador House and Mr Sam<sup>l</sup>: Elyard Great S<sup>t</sup>: Helen's, for the benefit of the joint and separate Creditors

1<sup>st</sup> The Arrangement is objectionable  
1. Because the Trustees are authorised to deferred Auctions and put in Bail and to indemnify themselves from the consequence out of the Trust Fund - this provision might enable Creditors not signing the Deed to obtain payment of their debts in full.

2<sup>nd</sup> Because so soon as Mr Meyer has executed an Assignment of his Effects, it is declared that the Deed shall operate as a Release, and thus he would be discharged immediately, although the Creditors should never derive the slightest advantage from the Arrangement.

It

It is to be remarked that the arrangement between M<sup>r</sup> Meyer and his Creditors was agreed upon at a meeting held on the 16 December 1824 and considering the period which has elapsed (nearly 18 months) it would be reasonable to expect that the property should by this time have been realized or a considerable portion of it, or the Creditors may fairly doubt whether they are likely to obtain any considerable dividend in return for the proposed Release and it may be worth consideration whether a statement should not be required of the measures for realizing the Property and the result of them.

The foregoing Report was accompanied by a Paper received from M<sup>r</sup> Meyer shewing the Creditors who have, & those who have not signed the deed.

Resolved

That information be required of the measures already taken conformably to M<sup>r</sup> Freshfield's suggestion.
