The Deputy Governor acquainted the Committee that the Board of Inland Revenue had allowed to the Bank Provident Society the reliefs afforded to life insurance companies in respect of investment income and management expenses, without requiring any change of status; and that the Board of Trade, in a letter dated 29th July, had stated that it was not necessary to take any action in regard to any requirements of the Assurance Companies Act 1909.

Having considered Rule XXII of the Rules and Regulations of the Bank Provident Society, stating that the Bank of England had accepted full liability for the Assurance and Annuity Funds, and in accordance with the request made by the Managers of the Society at their meeting on the 23rd June, it was agreed to recommend to the Court of Directors that the liability referred to be now formally acknowledged by the Bank. It was further agreed that some consequential change would be necessary in the note appended to the Balance Sheet of the Banking Department.

The Governor acquainted the Committee of the outcome of recent interviews between the Governors and the Chancellor of the Exchequer on questions relating to the Constitution and Direction of the Bank. He was willing, at the request of the Bank, to release Mr. J. M. Keynes from any official position at the Treasury, if it were decided to propose him to fill the existing vacancy. He was not anxious to see any further change in the Court; but had informed the Governors that in his opinion it might be desirable to widen yet more the field from which candidates were drawn. It had been agreed to explore the possibility of legislation to reduce the qualification in Bank Stock and to provide for elasticity in the necessary number of Directors.

Further in view of the public interest likely to be aroused as the usual date for the Selection of Governors came near, the Governor proposed that an announcement should be made on the following points at the General Court called for the 18th September, if a decision had by then been taken upon them: - the filling of the vacancy, the continuance in office of some of those attaining the age of 70, the Selection of Governors, and the proposed legislation.

The Committee approved.

It was agreed to recommend to the Court of Directors that the Order of Court of the 13th October 1932 governing

3rd September 1941

the date for the selection of Governors be suspended for this year; that the Rt Hon Montagu Collet Norman D.S.O., and David Gage Catterns, Esq. be invited forthwith to allow their names to be submitted to the Proprietors in due course for election to the offices of Governor and Deputy Governor, respectively; and that the ballot be taken at the Court on the 11th September.

The Deputy Governor acquainted the Committee that, with reference to the minute of the 26th March last, he had arranged that certain overhead charges of a general character should be excluded from the Bank's charge to the Treasury for the administration of the Defence (Finance) Regulations. The overhead charges in question would normally be included in a claim on a full costing basis, but they were of a type which he thought it preferable the Bank should not seek to recover in this instance. It was not proposed however to make any similar alterations in the method of calculating the amounts recoverable for the expenses of the Note Issue or for those of the issue and withdrawal of Silver Coin.

CT 50.03

The simplified procedure now used for the issue of many new Government loans tended to make the Bank's scale charges excessive. It had become the practice, therefore, to agree a special fee for this work with the Treasury on each occasion. A new arrangement of charges for issues, redemptions, etc., and for management might have to be introduced at a later date but due consideration of all the varying factors would not be possible until the Bank had more data regarding the probable post-war costs of the Accountants Department.

The Governor acquainted the Committee of the following matters:-

CT 70-03

The Governor acquainted the Committee that no further progress had been made in selecting candidates for the Directors. Assuming that an acceptable "left-wing" candidate could be found, he asked the Committee to consider the advisability of inviting at the same time some candidate who was a Clearing Banker, but not a nominee of the Clearing Bankers Committee, notwithstanding the long practice of the Bank.

CT 70

With reference to minutes of the 3rd - 17th September, if the legal position were found to be that a Supplemental Charter could be granted without prior Act of Parliament, it might be well to ascertain the views of the Chancellor of the Exchequer on reducing the compulsory number of Directors by this method and perhaps also the Stock qualification.

It was agreed that it would be desirable to obtain by Supplemental Charter a reduction in the necessary number of Directors and in the stock qualification, provided prior legislation was not necessary; but that it would nevertheless be necessary to have one or two candidates available for the next election, in view of the shortness of time.

Wednesday the 10th June 1942.

The draft minutes of the last meeting were read and agreed.

It was agreed that no alterations be recommended in the Bank Rate.

It was agreed to recommend to the Court of Directors:-

(1) That a Pension be granted in accordance with the Scale and under the provisions of the Trust Deed of the Superannuation Fund to:-

C.R. Lewis                      an auxiliary male Clerk; age 65  
 years on the 9th July 1942; service 23 years  
 £207 a year from the 9th July 1942  
 inclusive.

(2) That, in response to an appeal, a donation of five hundred pounds be made to the Young Women's Christian Association.

The Governor acquainted the Committee of the following matters:-

(1) With reference to minutes of the 10th December 1941 and earlier, the costs incurred by the Bank on behalf of the League Loans Committee during the half-year ended the 28th February 1942 amounted to £313, of which sums out-of-pocket expenses accounted for £19.

(2) In order to make further economies in Staff it was proposed that during the war only about half, instead of the whole, of the small denomination notes paid in at the Head Office and Branches be counted and examined.

(3) With reference to minutes of the 11th February 1942, it had now been suggested to Cyril Rogers that in all the

10th June 1942.

circumstances he should return home.

CT 39.01

(4) With reference to Minutes of the 2nd July 1941 and earlier, and in agreement with Whitehall, the China Consortium Agreement was necessarily regarded as abrogated by the entry of Japan into the war but no announcement would be made nor action of any kind taken.

CT 44.01

(5) He had approved a scheme whereby the shares in [redacted] held by [redacted] would be transferred to a Voting Trust with the London Directors as Trustees, to comply with legal requirements in the U.S.A.

CT 99.

CT 90.02

CT 74.

(6) He had been privately informed that some of the clearing bankers were discussing the possible advantages of an announcement by the Bank that Bank Rate and the volume and use of credit were under the control of the Government; and by the Clearing Bankers that they had agreed to maintain a constant cash ratio of 10%. The merits of announcing at some particular moment the existence of a control which had been in being for some time and had statutory support during the war might be doubted; and, although "window dressing" might be indefensible, he would regret the substitution of a rigid cash ratio for traditional flexibility and power of adaptation.

(7)

CT 50.03

The growth in the National Debt was leading to an increase in the remuneration for management received by the Bank against which costs, for a variety of reasons, showed no corresponding increase. For the first time since 1927 some reduction in the Scale of charge appeared appropriate. The Committee agreed that the Bank should propose a charge of £325 per million for the first £750 million of Inscribed and Registered Stocks, £150 per million on the next £5250 million and £50 per million on the balance, the other charges to the Treasury to remain unaltered.

B. A grant be made to

Mrs [redacted] Mother of [redacted] a

The Governor acquainted the Committee of the  
 following matters -

CT 50 09 (1) With reference to Minutes of the 10th December 1941  
 and earlier, the income derived from the Accounts of Central  
 Banko during the half year ended 28th February 1942 exceeds the  
 cost of management by £185,067. In the previous half year £80,000  
 had been transferred to Suspense Account of Central Banking in  
 respect of this amount less tax at 10/- in the £. The balance of £12,549  
 (including £15 in respect of the guarantee of commercial bills) would  
 be transferred to the Suspense Account in the current half year.

CT 188 (2) With reference to minutes of the 1st January 1941 and  
 earlier and to the Chancellor's recent announcement regarding the  
 conversion of industrial issues bearing interest in excess of 4%,  
 he hoped that the 4½% Priorities Debentures of Richard Thomas &  
 Co. held by the E.V. Finance Co. might be converted to a nominal  
 rate of say 6%, by private arrangement. To this end it might prove  
 desirable for the Bank to increase their participation in the advance

(b) Statistical returns of the U.K. Assets and Liabilities of Non-Residents and of the Overseas Assets and Liabilities of Residents, made to the Bank by bankers and others:-

CT 82.02

(1) In order to take full advantage of the experience gained in the past two years, he had appointed a Committee composed of Mr. Bernard (Chairman), Mr. Pitman, Sir Kenneth Phipps and Mr. Dalton, with the following terms of reference:-

"To review existing exchange control practice and consider whether, subject to the overriding necessity of conserving our exchange resources for the war effort, any changes should now be introduced, bearing particularly in mind

- (a) the need to economise in man-power dealing directly or indirectly with exchange control, both in the Bank and elsewhere;
- (b) the present restricted and controlled basis of world trade and exchange movements;
- (c) the desirability of moving towards a system more suited to post-war conditions."

(2) For family reasons, Portals Ltd. wished to divide their Ordinary Shares of £10 into Preference and Ordinary Shares of £1. Under the proposed new articles, which had been drawn up by Messrs. Freshfield, the Bank's ten shares of £10 would become 100 shares of £1; but their rights would not be affected and the Bank's approval would be given in due course.

CT 192.02

(3) With reference to minutes of the 9th October 1940 and earlier, discussions had been proceeding with Mr. Frater Taylor regarding the possibility of selling the Preference Shares held by the Bank in Bowater's Newfoundland Pulp & Paper Mills Ltd. The Committee agreed that failing an outright sale of the shares a scheme on the lines of the second alternative in Mr. Frater Taylor's letter of the 6th July, which was laid before them, should be pursued if practicable.

6. Signing powers granted in connection with the administration of the Defence (Finance) Regulations

of 192-02. The Governor acquainted the Committee, with reference to a minute of the 8th July, that Bowater Lloyd Newfoundland Limited seemed prepared to offer  $15/6$  a share for the Preference Shares held by the Bank in Bowaters' Newfoundland Pulp and Paper Mills Ltd. He proposed that this offer should be declined: and that alternatives should be suggested either of a sale at  $13/9$ , or of a sale at, say,  $15/-$ , the proceeds of the latter to be employed in taking up  $3\frac{1}{2}\%$  Debentures guaranteed by the Newfoundland Government so that the existing  $5\frac{1}{2}\%$  B Debentures could be redeemed.

The Committee agreed that the annual reduction in the guarantee of the Newfoundland Government, amounting in interest to some £34,000, would be so substantial as to merit, on the face of it, the necessary consent of H.M. Government - while the suggestions indicated a constructive willingness to assist Bowaters, which might properly be shown by the Bank. It was further agreed that the new guaranteed debentures would be a reasonable investment for the Banking Department, if necessary up to a total of some £1,800,000.

(3) In recent years the interest on British Government <sup>Stocks</sup> Securities held by the Banking Department, together with receipts for management and Agency, had been approximately equal to the total of general expenses and the dividend. In this connection the Governor reminded the Committee that the increasing share taken by Executive Directors in the administration of the Bank might tend to create distinctions within the Court. The Governor acquainted the Committee that there had been many discussions on the need to promote scientific research in industry and on the part that could be taken therein by the Bankers, by the Federation of British Industries, and possibly by the London Chamber of Commerce.

It had now been arranged that a pamphlet compiled ad hoc by Sir Harold Bartley, should be distributed in the first instance to the Bankers for their branches, in the hope of thus making their industrial customers "research-minded". The Bank would pay the expense of printing; and if at a later stage large funds were required for the development of research, it might be desirable for the Bank to make a considerable contribution.

In this connection it was proposed to secure the appointment of Dr C. H. Desch, an eminent metallurgist, to the Board of Richard Thomas & Co Ltd.

(3) The Stock Exchange had recently expressed their dissatisfaction with the limitations now placed on their freedom of action, particularly in the matters of minimum prices and control over the granting of permission to deal. In his view, minimum prices were no impediment to business at current levels; but were still a wise protection to the gilt-edged market in the event of a sudden unfavourable change in circumstances. Although the control over permissions to deal might possibly divert some business from the Stock Exchange, their freedom still compared favourably with that of, for instance, the Bankers; and the abolition of this control would both impair the effectiveness of the Capital Issues Committee and tend to develop rival attractions to Government tape issues.
