Sir,  
I have this morning seen Josiah Cassman whom  
you may recollect I mentioned to you on Saturday  
last, and have understood from him that it has in-  
-tention to write to you immediately to request that  
you will receive from him a disclosure of all the  
information he possesses relative to the crime with  
which he is charged. The object of my addressing  
you at present is to recommend this unfortunate  
man to your favorable consider-  
-ation, and to hope that the ends of justice may be  
satisfied with a more lenient punishment than  
the forfeiture of his life. Upon my mentioning to  
him that it was believed by the persons who will  
prosecute him that he had been for a long period  
concerned in & a nefarious traffic with forged  
notes he assured me in such a manner as I  
confess has staggered that he never was directly  
or indirectly concerned in it before March last-  
knowing as I do that while he was in this  
office (from June 1819- to January 1821.)

he was tolerably punctual in the discharge of his duty, and that he was generally pennyless I cannot help hoping that some mistake may be found in your ~~unhappy~~ conclusion in this particular respect. If then should be I am sure you will take care that this wretched man shall not labour under a greater weight of guilt than really belongs to him, and perhaps when his misfortunes, & his previous respectability, are taken into consideration it may be possible to procure for him an opportunity of repairing the injury he had done to society in this country, by the exercise of his industry and talents (which are not quite despicable) in another. - Begging you will consider this letter as a private one I remain

In

and faithful Servant  
James Pacony.

Joseph Jackson

Gentlemen,

The awful situation in which I am placed has induced me once more to address you, and the knowledge that my fate is in your hands encourages the hope that mercy may yet be extended to me.

When I learnt that it was not consistent with that resolution which you had taken, with respect to such offenders as myself, to suffer the plea of Guilty to the minor offence to be made, I preferred acknowledging my crime to vainly contradicting it, and undergoing the form of a trial which could not have made my guilt more apparent or more hateful to me - I have in consequence received the appalling sentence of death, and now, standing on the brink of eternity, I make once more an appeal for Mercy, to you, upon whose breath depends my existence, coupled as my fate is, with that of a confiding heart broken wife, I have every inducement to beseech that you will spare our lives to give us an opportunity of amending them. That I have the strongest desire to do so, the confession I have made to one of your Officers, and my conduct since to my apprehension, I humbly submit are sufficient evidences. I am moreover willing to do every thing in my power to detect and bring to justice the hidden contrivers of the nefarious system which has been perfected by the blood of so many victims to whose number, unless your clemency shall avert my impending fate, I may soon be added. There is nothing which can be suggested, that I will not obey, no enterprise however dangerous that I will not gladly undertake, to accomplish this object. I have no pledge to give for this, but the solemn

F 25 | 9 | 12 a

assurance of a wretched man in too perilous a case to be insincere in word or thought.

The only ground (beyond those I have before mentioned) upon which I can lay any claim to your indulgence is, that my case, guilty as I am, is not worse than any, not at all so bad as some of those which have received the Mercy I now implore; - none of them, I believe, had to bear the pangs of famine and the agony of seeing a wife perishing for want of the necessaries of life. Those only who have felt such misery can tell how hard it is to suffer. - Upon this subject I hardly dare touch, but I beg humbly to remind you that the long continued practice of suffering offenders to plead to the minor offence, and the recent cases of Pops, Buesford, Smith and many others convince me that you have been merciful, and induce me to believe that you will be no less so to me. I know that upon your representation to the Government depends my life or death.

Gentlemen, I implore you by that forbearance you have so often displayed to other Criminals, and the recollection of which stands now, like the Angel of Hope, between me and the Grave which is open at my feet - by those charitable feelings to which the discharge of your public duty does violence; by your domestic happiness; - by the reward promised to those who emulate the first attribute of Heaven, - Mercy! - by that Great and Good God on whose clemency all Men rely, and "who deserveth not the death of a sinner, but rather that he may turn from his wickedness and live," - to weigh the awful condition in which I stand and when you consider the temptations to which I have been exposed and the misery I have borne to let the balance of pity incline in my favor -

Recollect I beseech you that I am not hackneyed in the practices for which I stand condemned, that the papers I annex prove that at no very distant period I enjoyed the approbation of Gentlemen whose praise could only be obtained by deserving it, and believe the solemn assurance which perhaps may be uttered with my dying breath, that if your Mercy should be extended to me, all that may be spared to me of existence shall be devoted to such worthy purposes as may evince my gratitude for your interposition

I am Gentlemen  
in the deepest affliction  
Your obedient servant

John Parnell.

Sir

Sometime in the Autumn  
of last year I had the honor of communicating  
with you respecting some papers which came into  
my possession relating to the Manufacture of forged  
£5 notes at Birmingham (Supposed of the new series)  
I had several interviews with you at the Bank on  
the subject, which ended by my placing the papers  
in the possession of the Bank Solicitor -

my sole motive at the time was public duty,  
as I considered the information (if correct) to be of  
serious importance to the Bank & the Country -

Since that period my situation has become  
very distressing in consequence of the complete failure  
of my American concerns & other causes, that I am  
compelled in order to save a wife and eight children  
from actual want, to solicit assistance until  
means can be adopted of extricating me from my

present situation — I have therefore taken the liberty of addressing you Sir on my behalf humbly suggesting that if the information I conveyed through you to the Directors was of any benefit to the establishment they may be pleased to take my situation into their consideration Any relief they may think proper to grant me, however small it may be, will be thankfully received & gratefully remembered, for I am reduced to such an extremity, that I have no means of purchasing a meal for my family without an immediate application to the parish for relief — nothing but the most dire necessity could have prompted me to make this application

there Mr. Miller if Cornell Taylor had been

My dear Sir,

So well do I know your benevolent  
disposition, and so certain am I of the  
benign measures which the Directors  
and Governours of the Bank of England  
are always ~~desirous~~ inclined to adopt in  
cases similar to that upon which the

I do not presume to offer any argu-

an advocate far more powerful in the  
bosom of all those to whom it is directed.

If the petition went at all to the prayer  
of his application to pardon I would not  
join in it, unless I had more satis-  
-factory evidence as to general char-  
-acter; but as it relates only to the  
commutation of the sentence of death into  
one of perpetual banishment, I trust  
that the clemency of the parties in-  
-jured & prosecuting, will be extended  
towards this wretched man, in accom-  
-modating him to mercy; that a deliv-

affording him time & space for repentance,

May I solicit your kind attention  
to the information I am about to give you  
of my being you it is correct - I have been  
innocently ensnared into this unhappy affair  
by Mary Ann Kelly who is the sole cause  
of the approaching misery which must  
overwhelm me if you do not kindly extend  
your lenity towards me - the young  
Woman who was acquitted last week was  
ensnared in the same way that I have  
been - trusting to your humane interference  
in my behalf - and submitting my case to  
your kind consideration -

I am,

I take the liberty of forwarding you the follow-

Bridget Hather  
Elizabeth Despard  
Mary Howard Proctor

1 Feb. 1821 -

The Gentlemen Bank of England  
directors, are respectfully inform'd  
that Eliz<sup>th</sup> Denham, a Bank Prisoner  
in Newgate, begs her case may be taken  
into consideration for a weekly allowance  
toward the support of her self and two  
Infant Children. E. Poyze has taken  
his liberty on the behalf of E. Denham  
and at her request.

E. D. begs leave to call the attention of  
the Gentlemen to the consideration also,  
of the gratuitious allowance of the £5.  
which has been usually presented to  
them on board the Ship when about to  
be Transported. From the observations  
E. D. has been capable of making she is  
apprehensive, this act of great kind-  
ness is attended with no real benefit.

to them individually, in the way it is intended, because they presume upon it, and they will expect it; the consequence is, they lavish their week by allowance whilst in Prison, still in debt, their Cloaths in pawn, and, they, generally in a worse state than if they were not in expectation of the addition of the £5.

On stating the above remarks, E. begins further to observe, that on board the female Convict Ships, she has felt peculiar interest for the better regulating the Convicts by Classification, Employment and Organizing a School for the Children in order measurably to prevent those disgraceful scenes which have too commonly prevail'd.

These regulations are attended with considerable Expense, and the Bank Comrs to share in common with the ~~xxxx~~ three women, in all the privileges which are thus dispensed among them.

E. D. does not ask for the £5. to be withheld altogether, but if they could see no impropriety of throwing their gift into the general Fund for the express purpose above stated, it would be put to a good and beneficial account, and prevent those peevishities which never fails to occur on those occasions.

E. Dyer hopes the Gentlemen of the Bank of England, will excuse this liberty, more especially as it may appear premature, but she engaged to apply on behalf of E. Denbarn, and then thought it right to throw the whole subject before them, in hope it may have due place in their consider-  
= others.

In consequence of a letter addressed to the Solicitors of the Bank. I went to Newgate and saw William Hill, before he said any thing to me, I told him I was very willing to hear whatever he had to say but he must perfectly understand I could not promise, or hold out any hopes of its being of service to him. he said he understood that, and that all he wanted was to be allowed to postpone his Trial quietly to the next Sessions, that in the meanwhile he might be able to detect the person from whom he had his forged notes, that he did not know his real name or where he lived, but that through some connexions of his own he had no doubt he should succeed. I desired him to put in writing what he had stated and direct it to the Solicitors, which he promised to do immediately, He did not do so but in about a week wrote me a note making an excuse for not doing it. after his Trial was postponed, I was directed again to see him which I did and offered every assistance in forwarding his plans of detection but he stated that he could get all assistance he wanted, did not acquaint me with his plans, and said if necessary he would apply to me.

I have considered it my duty to inform you that I have just heard that the person, whether it be a companion or should be committed for trial at High Court this Session for passing bad money, three of the most despicable characters, for the circulation of forged notes, two of whom are in feigned names, Subbark's name is just, Williams is a task of Fidler in his proper name.

Now having laid this before you I humbly trust you will with have the goodness to endeavor to have as much lenity & mercy shown me as will prevent the awful sentence of the Law being twice into Execution, I trust in consideration

Your letter I received yesterday & altho' you express therein that the Gov. & Directors of the Bank of England will not interfere in my behalf I trust they may not be induced to do any thing against me than what is already done, so as to prevent my Friends interceding themselves to save my life & as I have endeavored to disclose every thing I knew, I have in addition to say that conversing with one of the Prisoners here, I have learned that Black Hury, the Person who Fiddler obtains the Note, lodges in No 15 View St. Chancery St. Covent Garden

I further that He has been always  
living by the sale of them, &  
keeps them in the Front Cellar  
I cannot myself vouch for the  
exact Truth of this but am led  
to understand that <sup>it</sup> is correct  
and trust this will be an additional  
Appeal to save me from a disagreeable  
End - I prevent others from falling
