## TABLE XXIV. MONTHLY FLUCTUATIONS in the EXCHANGES, in the PRICE of INDIA COUNCIL DRAFTS, and in the PRICE of SILVER.

This Table is interesting as showing the fluctuations during each month in the Exchanges on London in New York, Paris and Berlin; in the price obtained for India Council Bills and Telegraphic Transfers; and in the price of Silver.

A favourable opportunity is afforded of observing the gradual fall in the price of Silver and the consequent decline in the exchange on India. The lowest recorded points were touched in May, 1888, when Bar Silver was quoted at  $41\frac{5}{8}$  per ounce, and India Council Bills were allotted at  $1/4\frac{1}{3^{12}}$  per Rupee.
