How to check the new £20 note

Focus on these two key security features to help confirm that your notes are genuine

1. Hologram image change
   Tilt the note from side to side. Check the words change between 'Twenty' and 'Pounds'.

2. See-through windows
   Look at the metallic image over the main window. Check the foil is blue and gold on the front of the note and silver on the back.

Look for a second, smaller window in the bottom corner of the note.
