How to check the new £20 note

Focus on these two key security features to help confirm that your notes are genuine

1 Hologram image change

Tilt the note from side to side. Check the **words change** between 'Twenty' and 'Pounds'.

2 See-through windows

Look at the metallic image over the main window. Check the foil is **blue and gold on the front** of the note and **silver on the back**.

Look for a **second, smaller window** in the **bottom corner** of the note.
