Priorities and roadmap for transition by end-2021

Updated: April 2021

April 2021: Factual update, reflecting recent developments and forthcoming working papers (slide 4)
Working Group on Sterling Risk-Free Reference Rates (RFRWG)
Top Level Priorities - 2021

1. Be fully prepared for the end of GBP LIBOR, by the end of 2021
2. Continue to enable and promote widespread use of SONIA compounded in arrears throughout wholesale sterling markets
3. By end-Q1 2021, cease initiation of new GBP LIBOR-linked loans, bonds, securitisations and linear derivatives* that expire after the end of 2021
4. By end-Q1 2021, complete identification of all legacy GBP LIBOR contracts expiring after end 2021 that can be actively converted, and progress active conversion where viable through to completion by end-Q3 2021
5. Take steps to enable a shift of volumes from GBP LIBOR to SONIA in non-linear derivative markets:
   a) by end-Q2 2021, cease initiation of new GBP LIBOR-linked non-linear derivatives* that expire after the end of 2021; and,
   b) by end-Q3 2021, complete active conversion where viable

* Except for risk management of existing positions (see link for details)

**Statement of 2021 RFRWG priorities**

- Ongoing communications to cash market stakeholders
- Ongoing education on active conversion and tough legacy
- Ongoing education on implementation of fallbacks at cessation

**RFRWG Deliverables**

- **Bond market fallbacks:** consultation on potential successor rates for type 2 & 3 bond fallbacks
- **Bond market fallbacks:** consultation feedback published
- **Term Rate:** Term SONIA Reference Rates entered live production
- **PRA/FCA** Dear CEO letter setting out supervisory expectations of the transition from LIBOR to RFRs
- **FCA** consultation closed on considerations when exercising powers as proposed under the Financial Services Bill, relating to requiring a change of methodology for critical benchmarks
- **FMSB** published a transparency draft of its standard on the use of Term SONIA Reference Rates
- **Structured products:** guide to transition in structured product markets
- **Proposed cessation of all GBP LIBOR panel settings, subject to IBA consultation**
- **Non-linear derivative conventions switch** from LIBOR to SONIA first

**External Market Developments**

- **ISDA** protocol took effect on 25 January 2021
- **Term Rate:** FMSB published a transparency draft of its standard on the use of Term SONIA Reference Rates
- **FCA** expected to consult on proposed policy for exercising potential new powers under Financial Services Bill relating to benchmark use provisions
- **Non-linear derivative conventions switch** from LIBOR to SONIA first

## Target milestones: product class breakdown

In support of the RFRWG’s objectives to establish clear frameworks to cease trading of new LIBOR-linked products and manage transition of legacy LIBOR products, the table below provides a product-by-product view of the steps needed to meet the key milestones established by the RFRWG.

<table>
<thead>
<tr>
<th>By end of:</th>
<th>Q1 2021</th>
<th>Q2 2021</th>
<th>Q3 2021</th>
<th>Q4 2021</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Derivatives</strong></td>
<td>• Cease initiation of new GBP LIBOR-linked linear derivatives that expire after the end of 2021, except for risk management of existing positions*&lt;br&gt;• Complete identification of all legacy LIBOR contracts expiring after end 2021 that can be actively converted&lt;br&gt;• Accelerate active conversion where viable (e.g. compression/renegotiation) to reduce legacy volume&lt;br&gt;• Widespread sign-up to the ISDA protocol ahead of effective date**&lt;br&gt;</td>
<td>• By end-Q2, cease initiation of new GBP LIBOR non-linear derivatives that expire after the end of 2021, except for risk management of existing positions*&lt;br&gt;• Complete identification of all legacy LIBOR contracts expiring after end 2021 that can be actively converted&lt;br&gt;• Accelerate active conversion where viable (e.g. consent solicitation mechanisms) to reduce legacy volume&lt;br&gt;• Complete active conversion across linear and non-linear derivatives where viable, and if not viable, ensure robust fallbacks are adopted where possible&lt;br&gt;</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

| **Bonds and securitisations** | • Cease new issuance of GBP LIBOR-referencing products maturing after 2021<br>• Complete identification of all legacy LIBOR contracts expiring after end 2021 that can be actively converted<br>• Accelerate active conversion where viable (e.g. consent solicitation mechanisms) to reduce legacy volume<br> | • Complete active conversion where viable<br> | • Be fully prepared for the end of GBP LIBOR<br> | |

| **Loans** | • Cease new issuance of GBP LIBOR-referencing products maturing after 2021<br>• Complete identification of all legacy LIBOR contracts expiring after end 2021 that can be actively converted<br>• Accelerate active conversion where viable (e.g. at renewal, proactive negotiation, or using pre-agreed terms) to reduce legacy volume<br> | • Complete active conversion where viable<br>• Where active conversion is not viable, ensure robust fallbacks are adopted where possible<br> | | |

*More detail on exceptions for risk management is available [here](#). It is acknowledged cross-currency RFR markets currently remain nascent, and that further developments will be necessary in 2021.

**Subject to individual firms’ usual governance procedures and negotiations with counterparties as necessary. Where the protocol is not used, other appropriate arrangements will need to be considered to mitigate risks.
