In relation to point (1) above: (a) For the purpose of this guidance, exposure refers to all gross direct commitments to a leveraged borrower, including drawn and undrawn facilities, term loans, bridge loans or revolving credit facilities, committed exposures not yet syndicated or distributed, and exposures being warehoused for a later sale. (b) The term "Total Debt" refers to total committed debt (including drawn and undrawn debt) and any additional debt that loan agreements may permit. Committed undrawn liquidity facilities, according to the Basel Committee on Banking Supervision's Basel III: The Liquidity Coverage Ratio and liquidity risk monitoring tools (BCBS 238), are excluded. Cash should not be netted against debt. For the purpose of leverage multiple, when calculated at transaction origination, the pro forma financial statements of the resulting company after the transaction has taken place should be considered.	NO	NO

Bank of England PRA

(c) EBITDA refers to earnings before interest, tax, depreciation and amortisation. Any enhancements to EBITDA should be duly justified and reviewed by a function independent of the front office function.

(d) The designation of a financing as a "leveraged transaction" is made at loan origination, modification or refinancing.

(e) The leverage multiple should be calculated at the consolidated borrower level, unless group support cannot be assumed in case the borrowing entity is experiencing financial difficulties. Any deviation from the calculation at consolidated level should be justified and documented on a case-by-case basis.

In relation to point (2) above:

(a) As per point (37) of Article 4(1) of Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (the Capital Requirements Regulation, the CRR), a financial sponsor (for which definition see below) is deemed to be the owner if it controls or owns more than 50% of the borrower's equity.

(b) The term "financial sponsor" refers to an investment firm that undertakes private equity investments in and/or leveraged buyouts of companies with the intention of exiting those investments on a medium term basis.

The following transactions are not expected to be covered by the leveraged transaction definition:

1. loans with natural persons, credit institutions, investment firms, public sector entities and financial sector entities (the terms "credit institution", "investment firm", "public sector entity" and "financial sector entity" are defined in points (1), (2), (8) and (27) respectively of Article 4(1) of the CRR);

2. loans to small and medium-sized enterprises (SMEs) as defined by Commission Recommendation 2003/361/EC except where the borrower is owned by one or more financial sponsors (see notes above as to where the borrower is owned and the term "financial sponsor");

3. loans classified as specialised lending; "specialised lending" is defined in Article 147(8) of the CRR; and also in the EBA's Regulatory Technical Standards on Assigning Risk Weights to Specialised Lending Exposures under

Bank of England PRA

		Article 153(9) of the CRR; and in the BCBS's Working Paper on the Internal Ratings-Based Approach to Specialised Lending Exposures of 2001; "specialised lending" comprises project finance, real estate, object financing and commodities financing; 4. trade finance; as per Article 4(80) of the CRR, trade finance means financing, including guarantees, connected to the exchange of goods and services through financial products of fixed short-term maturity, generally of less than one year, without automatic rollover; 5. Asset-Based Loans (ABLs) that are the only source of funding in the borrower's capital structure; 6. loans secured only by financial assets.

CRPL85	Recovery Source	The source of the recoveries: Liquidation of Collateral (LCOL) Enforcement of Guarantees (EGAR) Additional Lending (ALEN) Cash Recoveries (CASR) Mixed (MIXD) Other (OTHR)	NO	YES
CRPL86	Recourse	Is there recourse (full or limited) to the obligor's assets beyond the proceeds of any collateral for this underlying exposure?	YES	YES
CRPL87	Deposit Amount	The sum of all obligor amounts held by the originator or seller that are potentially off-settable against the underlying exposure balance, excluding the benefit of any national deposit compensation scheme. To prevent double-counting, this is capped at the lower of (1) the deposit amount, and (2) the maximum potential off-settable amount at the obligor-level (i.e. not underlying exposure-level) within the pool. Use the same currency denomination as that used for this underlying exposure. If an obligor has more than one underlying exposure outstanding in the pool, then this field is to be completed for each underlying exposure, and it is up to the discretion of the reporting entity to decide to allocate the deposit amount across each of the underlying exposure, subject to the above-mentioned cap and so long as the total entries for this field across the multiple underlying exposures adds up to the accurate amount. For example, if Obligor A has deposit balance of €100, and two underlying exposures outstanding in the pool of: underlying exposure 1 €60 and underlying exposure 2 €75. This field could be completed as either underlying exposure 1 - €60 and underlying exposure 2 - €40, or underlying exposure 1 - €25 and underlying exposure 2 €75 (i.e. the relative entries for this field in each underlying exposure is capped at €60 for underlying exposure 1 and at €75 for underlying exposure 2 and the sum of the values across underlying exposure 1 and underlying exposure 2 must equal €100).
