*external group end user* means a person who receives services and who is not a member of the firm’s consolidation group on the basis of the consolidated situation of the firm’s UK parent undertaking.

*impact tolerance* means the maximum tolerable level of disruption to an important business service or an important group business service as measured by a length of time in addition to any other relevant metrics.

*important business service* means a service provided by a firm, or by another person on behalf of the firm, to another person which, if disrupted, could pose a risk to:

2. the firm’s safety and soundness.

*important group business service* means a service provided by a member of the firm’s consolidation group (other than the firm) on the basis of the consolidated situation of the UK parent undertaking of that consolidation group, to an external group end user which, if disrupted, could pose a risk to:

1. where the firm is an O-SII, the stability of the UK financial system; or
2. the firm’s safety and soundness.

*O-SII* means a person or group identified by the PRA in accordance with Part 5 of the Capital Buffers Regulations.

1.3 Unless otherwise defined, any italicised expression used in this Part and in the CRR has the same meaning as in the CRR.

2 OPERATIONAL RESILIENCE REQUIREMENTS

2.1 A firm must identify its important business services and, where 8.2 applies, its important group business services.

2.2 A firm must set an impact tolerance for each of:

1. its important business services; and
2. where 8.2 applies, its important group business services.

2.3 The impact tolerance set for each important business service or important group business service must specify the first point at which a disruption to the important business service or important group business service would pose a risk to:
(1) where the firm is an O-SII, the stability of the UK financial system; or
(2) the firm’s safety and soundness.

2.4 The impact tolerance set for each important business service or important group business service must specify the length of or point in time, in addition to any other relevant metrics, for which a disruption to that important business service or important group business service can be tolerated.

2.5 A firm must ensure it can remain within its impact tolerance for each important business service in the event of a severe but plausible disruption to its operations.

2.6 A firm must comply with 2.5 within a reasonable time of the rule coming into effect and in any event by no later than 31 March 2025.

3 STRATEGIES, PROCESSES AND SYSTEMS

3.1 A firm must have in place sound, effective and comprehensive strategies, processes and systems that enable it adequately to:

(1) identify its important business services and, where 8.2 applies, important group business services;
(2) set an impact tolerance for each important business service and, where 8.2 applies, each important group business service; and
(3) identify and address any risks to its ability to comply with the obligation under 2.5.

3.2 The strategies, processes and systems required by 3.1 must be proportionate to the nature, scale and complexity of the firm’s activities.

4 MAPPING

4.1 As part of its obligation under 3.1, a firm must identify and document the necessary people, processes, technology, facilities and information required to deliver each of its important business services.

5 SCENARIO TESTING

5.1 As part of its obligation under 3.1, a firm must carry out regular scenario testing of its ability to remain within its impact tolerance for each of its important business services in the event of a severe but plausible disruption of its operations.

5.2 In carrying out the scenario testing required by 5.1, a firm must identify an appropriate range of adverse circumstances of varying nature, severity and duration relevant to its business and risk profile and consider the risks to delivery of the firm’s important business services in those circumstances.

5.3 The scenario testing required by 5.1 must be proportionate to the nature, scale and complexity of the firm’s activities.

6 SELF-ASSESSMENT

6.1 A firm must prepare and regularly update a written self-assessment of its compliance with this Part.

6.2 The content and level of detail of a firm’s written self-assessment must be proportionate to the nature, scale and complexity of the firm’s activities, and where applicable to the activities of the consolidation group of which the firm is a member.
6.3 A firm must maintain, and be able to provide to the PRA on request, a current version of its written self-assessment, together with all versions produced during the preceding three years.

7 GOVERNANCE

7.1 A firm must ensure that its management body approves the important business services and important group business services identified by the firm in compliance with 2.1 and 8.2.

7.2 A firm must ensure that its management body approves the impact tolerances set by the firm in compliance with 2.2 and 8.2.

7.3 A firm must ensure that its management body approves and regularly reviews the self-assessment required by 6.1.

8 GROUP ARRANGEMENTS

8.1 Where a firm is a member of a group, the firm must ensure it accounts for any additional risks arising elsewhere in the group that may affect the firm’s ability to comply with the obligation under 2.5.

8.2 Where a firm is a member of a consolidation group, the firm must also comply with 2.1 and 2.2 in relation to its important group business services, on the basis of the consolidated situation of the UK parent undertaking of the consolidation group.

8.3 With the exception of 3.1(3), where a firm is a member of a consolidation group, the firm must ensure that the strategies, processes and systems at the level of the consolidation group of which it is a member comply with the obligations set out in 3 on the basis of the consolidated situation of the UK parent undertaking of the consolidation group.

8.4 Where a firm is a member of a consolidation group, the firm must ensure that the strategies, processes and systems at the level of its consolidation group enable the firm to assess on the basis of the consolidated situation of the UK parent undertaking of the consolidation group whether the member of that consolidation group providing each important group business service could remain within the impact tolerance in the event of a severe but plausible disruption to its operations.

8.5 The strategies, processes and systems required by this Chapter must be proportionate to the nature, scale and complexity of the consolidation group’s activities.
