

Bank of England PRA

Bank of England banking taxonomy release note – Basel 3.1 PWD3

Friday 10 October 2025

Public working draft three (PWD3) of the Bank of England banking taxonomy sets out the technical implementation of the policy proposals of [CP17/25 – Basel 3.1: Adjustments to the market risk framework](#) published on Tuesday 15 July 2025.

We have provided for comment:

- XBRL taxonomy
- Data point model (DPM) annotated templates and dictionary
- business validation rules.

We invite feedback on this PWD package to uktaxonomypwdfeedback@bankofengland.co.uk by Friday 21 November 2025.

This release should not be used for live reporting. A final version of the XBRL taxonomy and DPM, aligned to the final Basel 3.1 policy statement, will be published once the PRA rules are updated following revocation of the amended sections of the [Capital Requirements Regulation \(CRR\)](#) by HM Treasury.
