Reporting basis

For ring-fenced bodies (RFBs) that are part of a sub-consolidation group,¹ this template is to be reported by one RFB on behalf of all entities in the RFB sub-consolidation group. If this template is to be reported on an individual basis, then any reference to the RFB sub-consolidation group in the definitions below should be taken to refer to the RFB's subsidiaries.

Overview

This template consists of four parts:

- Dealing in investments as principal and commodities trading (excluding derivatives)

This section provides details of the extent of firms' excluded activities, excluding derivatives transactions.

- Dealing in investments as principal and commodities trading: derivatives

¹ 'Sub-consolidation group' is defined in the Glossary of the PRA Rulebook: <http://www.prarulebook.co.uk/>

This section provides details of the extent of firms' excluded activities which involve derivative transactions.

- Financial institution exposures, excluding capital holdings

This section provides details of firms' exposures to financial institutions, other than those which relate to capital holdings.

- Financial institution exposures: capital holdings

This section provides details of firms' exposures to financial institutions arising from capital holdings.

This template collects data on the extent to which entities that are within the RFB sub-consolidation group conduct excluded activities and incur prohibited exposures that would not be allowed under the terms set out in the Excluded Activities and Prohibitions Order ('the Order').²
