Instructions regarding reporting templates

IR.03.01 — Off–balance sheet items — general

General comments

This section relates to annual submission of information for individual entities and groups.

This section includes the information referring to off–balance sheet items and the maximum and solvency II value of contingent liabilities in Solvency II balance sheet.

A pool of assets that secure an investment (eg the pool of assets that are a collateral for covered bonds) should not be reported in this template.

As regards the Solvency II value, the instructions define the items from a recognition perspective. Valuation principles are laid down in the Valuation Part.

Guarantees require the issuer to make specified payments to reimburse the holder for a loss it incurs if a specified debtor fails to make payment when due under the original or modified terms of a debt instrument. These guarantees can have various legal forms, such as financial guarantees, letters of credit, credit default contracts. These items shall not include guarantees stemming from insurance contracts, which are recognised in technical provisions.

A contingent liability is defined as:

- a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non–occurrence of one or more uncertain future events not wholly within the control of the entity; or
- b) a present obligation that arises from past events even if:
 - i. it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - ii. the amount of the obligation cannot be measured with sufficient reliability.

Collateral is an asset with a monetary value or a commitment that secure the lender against the defaults of the borrower. The value of the collateral should be reported as the economic value of the collateral as per reference date (Solvency II value of the assets), not as the risk-adjusted value of a collateral according to Solvency Capital Requirement – Standard Formula 3E10.

The guarantees listed in this template are not reported in IR.03.02 and IR.03.03. This means that only limited guarantees are to be reported in this template.

This template shall be submitted when any of the following conditions apply:

- a) the amount of any of the following sums is higher than 2% of Total Assets:

b) the undertaking has provided or received unlimited guarantee.

At group level, the template is applicable for all entities within the scope of group supervision — including other financial sectors and non-controlled participations — for method 1 (Accounting consolidation-based method), method 2 (Deduction and aggregation method) and a combination of methods 1 and 2. For non-controlled participations guarantees provided and guarantees received are included on a proportional basis when method 1 is applied. When method 2 is applied these guarantees are reported with the total amount.
