

## Chapter 10

### Instructions regarding reporting templates

#### IR.05.02 – Premiums, claims and expenses by country

##### General comments

This section relates to annual submission of information for individual entities, groups and third country branches. Countries other than the home country do not need to be reported if gross written premiums for that country are less than £100m and less than 5% of total gross written premiums. This threshold applies separately to non-life and life business.

Items in this template are to be reported using financial accounting conventions, unless these instructions state that an item is to be reported on a Solvency II basis.

For items reported using financial accounting conventions:

1. In the event of any inconsistency or contradiction between the instructions in this document and the accounting standard reported at {basic information – general IR.01.02, row R0120}, firms are to follow the instructions in this document.
2. Subject to following the instructions in this document, firms shall follow:
  - a. the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required, and
  - b. the accounting standard reported at {basic information – general IR.01.02, row R0120} to the extent practical.

The template is based on a year-to-date basis.

Insurance and reinsurance firms shall report written/earned premiums as defined in the Glossary regardless of the accounting standard used. Other rows should be reported in a way that avoids inconsistency with the reporting of written / earned premiums. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements.

Claims incurred shall comprise all claim payments paid in the reporting period plus change in provision for claims outstanding less recoverable amounts arising out of subrogation of salvage.

The following criteria for the classification by country shall be used:

- The information, provided by country, shall be completed for up to five countries with the biggest amount of gross written premiums in addition to the home country;
- For insurance business for the lines of business, as defined in Technical Provisions – Further Requirements Annex 1, 1- “Medical expense”, 2- “Income protection”, 3- “Workers’ compensation”, 7- “Fire and other damage to property” and 9- “Credit and suretyship” information shall be reported by country where the risk is situated;
- For insurance business for lines of business, as defined in Technical Provisions – Further Requirements Annex 1, 4- “Motor vehicle liability insurance”, 5- “Other motor insurance”, 6- “Marine, aviation and transport insurance”, 8- “General liability insurance”, 10- “Legal expense insurance”, 11- “Assistance”, 12- “Miscellaneous financial loss”, 29 to 34- “Long-term insurance obligations”, information shall be reported by country where the contract was entered into;

# Bank of England PRA

- For accepted reinsurance business (ie lines of business, as defined in Technical Provisions – Further Requirements Annex 1, 13 to 28 and 35 to 36) information shall be reported by country of localisation of the ceding undertaking.

For the purposes of this template “country where the contract was entered into” means:

- The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- The country where the branch is located (host country) when the contract was sold through a branch;
- The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.
