Instructions regarding reporting templates

IR.05.04 – Non-life income, expenditure and business model analysis

General Comments:

This section relates to annual and quarterly submission of information for individual entities, groups and insurance undertakings in regard to branch operations.

Items in this template are to be reported using financial accounting conventions unless these instructions state that an item is to be reported on a Solvency II basis.

For items reported from using financial accounting conventions:

1. In the event of any inconsistency or contradiction between the instructions in this document and the accounting standards reported at {basic information – general IR.01.02, row R0120}, firms are to follow the instructions in this document.
2. Subject to following the instructions in this document, firms shall follow:
 - a) the recognition and valuation basis as for the published financial statements as originally published, no new recognition or re-valuation is required, and
 - b) the accounting standards reported at {basic information – general IR.01.02, row R0120} to the extent practical.

The template is based on a year-to-date basis.

Insurance and reinsurance firms shall report written/earned premiums as defined in the Glossary regardless of the accounting standards used. Other rows should be reported in a way that avoids inconsistency with the reporting of written / earned premiums.

Third country branches should read any reference to 'technical provisions' as the provisions to cover insurance and reinsurance obligations referred to in Third Country Branches 6.1.

Items of income and expenditure to be reported at entity level only (ie not by line of business) are indicated as such in these instructions for the item in question.

For the purpose of this template:

- 'Allocated loss adjustment expenses (ALAE)' means: the costs of-processing and resolving claims that could be assignable to individual claim (e.g. legal and adjuster's fees).
- 'Reporting period' means: the period between the reporting reference date applicable to when the template was last reported and the current reporting reference date.

Firms should complete the relevant tables in IR.05.04.01 and third country branches should complete the relevant tables in IR.05.04.07 as follows:

- Information related to the 'reporting period' is reported in tables 01 and 05.
- Rows R1710 and to R2190 in table 01 need not be completed by solo undertakings that do not have a Part 4A permission to effect contracts of insurance.

Bank of England PRA

- Information related to 'Plan year 1' (ie the first financial year following the 'reporting period') is reported in tables 02 and 06.
- Information related to 'Plan year 2' (ie the second financial year following the 'reporting period') is reported in tables 03 and 07.
- Information related to 'Plan year 3' (ie the third financial year following the 'reporting period') is reported in tables 04 and 08.
- Firms that do not have a Part 4A permission to effect contracts need not complete the business plan tables, ie tables 02, 03, 04, 05, 06, 07, and 08.
- Rows R1950 and R2100 to R2190 do not apply to third country branches.

For example:

	Reporting reference date reported in Solvency II Reporting template IR.01.02.01:	
	31 December 2016	30 June 2016
'reporting period'	Financial year ending 31/12/2016	Financial year ending 30/06/2016

'Plan year 3'	Financial year ending 31/12/2019	Financial year ending 30/06/2019

The information reported in this template is to be as at the reference date. This means that the information reported for 'Plan year 1', 'Plan year 2', and 'Plan year 3' should be consistent with the firm's most recent business plan approved by its Board at the reference date.

The balance sheet and own funds items and solvency capital requirement items in IR.05.04 shall be reported on a Solvency II basis.
