Instructions regarding reporting templates

IR.05.06 – Non-life premiums and claims by country

General comments

This section relates to annual submission of information for individual entities.

Items in this template are to be reported using financial accounting conventions unless these instructions state that an item is to be reported on a Solvency II basis.

For items reported from using financial accounting conventions:

1. In the event of any inconsistency or contradiction between the instructions in this document and the accounting standards reported at {basic information – general IR.01.02, row R0120}, firms are to follow the instructions in this document.
2. Subject to following the instructions in this document, firms shall follow:
 - a) the recognition and valuation basis as for the published financial statements as originally published, no new recognition or re-valuation is required, and
 - b) the accounting standards reported at {basic information – general IR.01.02, row R0120} to the extent practical.

Insurance and reinsurance firms shall report written premiums as defined in the Glossary regardless of the accounting standards used. Other rows should be reported in a way that avoids inconsistency with the reporting of written / earned premiums.

For the purpose of this template:

- 'Allocated loss adjustment expenses (ALAE)' means: the costs of processing and resolving claims that could be assignable to individual claim (e.g. legal and adjuster's fees).
- 'Reporting period' means: the period between the reporting reference date applicable to when the template was last reported and the current reporting reference date.

For example:

	Reporting reference date reported in Solvency II Reporting template IR.01.02.01:	
	31 December 2024	30 June 2024
'reporting period'	Financial year ending 31/12/2024	Financial year ending 30/06/2024
