Instructions regarding reporting templates

IR.05.08 - Material pooling arrangements

General Comment

This section contains additional instructions in relation to template IR.05.08. The first column of the next table identifies the items to be reported by identifying the columns and lines as shown in the template.

This relates to annual submission of information for individual entities and third-country insurance undertakings in regard to branch operations. The general purpose of this template is to enable basic analysis of the effect of material pooling arrangements on the undertaking's performance. A material pooling arrangement can be defined as any pooling arrangement with capacity more than 1 billion USD.

This template is to be reported from an accounting perspective. All amounts are expressed in units of the currency used for reporting in accordance with Reporting 2A Article 3 unless otherwise stated.

Third country branches should read any reference to 'technical provisions' as the provisions to cover insurance and reinsurance obligations referred to in Third Country Branches 6.1.
