

## Chapter 10

### Instructions regarding reporting templates

#### IR.05.09 – Assessable mutuals

##### General Comment

This section contains additional instructions in relation to template IR.05.09. The first column of the next table identifies the items to be reported by identifying the columns and lines as shown in the template.

These instructions relate to the annual submission of information for individual entities and third-country insurance undertakings in regard to branch operations.

This template is applicable to assessable mutuals. A reporting firm is required to complete this template if either:

- a) It has permission to effect new contracts and it has made supplementary calls on or after 1 January 2006; or
- b) It has received approval for ancillary own funds of the kind referred to Own Funds 2.3.

Supplementary calls are supplementary contributions that mutual and mutual-type associations with variable contributions may call for from their members in order to increase the amount of financial resources that they hold to absorb losses.

In particular, in the case of mutual or mutual-type associations of shipowners with variable contributions solely insuring maritime risks, the recourse to supplementary calls has been a long-established practice, where they substantially possess the characteristics set out in Own Funds 3.5, taking into consideration the features set out in Own Funds 3.6. Other mutual and mutual-type associations with recourse to supplementary calls may exhibit similar characteristics.

The general purpose of this template is to obtain the supplementary call history by each policy year for each class of mutual members, to show changes in the call pattern (at annual intervals), and to collect data to show the financial performance of the mutual.

This template is to be reported from an accounting perspective, on the accounting basis used for reporting to members.

All amounts are expressed in units of the currency used for reporting in accordance with Reporting 2A Article 3 (unless otherwise stated).

CELL(S)	ITEM	INSTRUCTIONS
C0010	Class code	<p>For each class of mutual members, the reporting firm will assign a 2 digit class code that will remain the same for that class for all subsequent reporting periods. The class code will be a number, including a leading zero where applicable.</p> <p>A reporting firm that was a “marine mutual” for the purpose of reporting under previous rules is expected to adopt the class codes associated with the descriptions of marine classes prescribed in those rules.</p>
C0020	Policy year end	<p>A policy year is a period in which policies allocated to it are subject to the same supplementary call for a particular class of mutual members.</p> <p>Identify the ISO 8601 (yyyy-mm-dd) code of the date identifying the last day of the policy year.</p> <p>There will be a line for each year which is open or was open before closure in the current year. A policy year is open if the option remains to make a further call in accordance with the rules of the undertaking. There will be an additional line if there are any closed year call adjustments, which may be aggregated across all policy years, and this cell left blank.</p>
C0030	Class of mutual members	<p>The classes of mutual members are as defined by the rules of each assessable mutual, where each member in that class with a policy allocated to the same policy year is subject to proportionally the same level of supplementary call. A reporting firm that is an assessable mutual will provide here a brief description of the nature of the risks ceded by that class of mutual members (for example “Protection and Indemnity”)</p> <p>A reporting firm that was a “marine mutual” for the purpose of reporting under previous rules is expected to adopt the descriptions of marine classes prescribed in those rules.</p>

C0040	Status of policy year	<p>Indicates whether or not the option remains to make a further call for the policy year.</p> <p>This is the status of each policy year for that class. The following closed list shall be used:</p> <ul style="list-style-type: none"> <li>- "Open"</li> <li>- "Closed in year"</li> <li>- "Closed in previous years"</li> </ul>
C0050	Calls made that were due in prior financial years	<p>The aggregate, cumulative amount of calls on members made in respect of each policy year and due to have been received in all prior financial years.</p> <p>The amount is before adjustments for reinsurance. It excludes any adjustment for pool contributions.</p> <p>The amount is before deduction for calls not collected.</p>
C0060	Calls made that were due in current financial year	<p>Amount of all calls on members made and due to have been received in the most recent financial year.</p> <p>Calls received for the forthcoming policy year are excluded.</p> <p>The amount is before adjustments for reinsurance. It excludes any adjustment for pool contributions.</p> <p>The amount is before deduction for calls not collected.</p>
C0070	Deferred / budgeted calls that are due in future years	<p>Amount of calls that members should be expecting to pay in the future.</p> <p>These may be deferred calls that have been made but were not due to be received by the end of the current financial year or budgeted calls expected to be made and become due in future financial years. Budgeted calls represent the aggregate of the percentages that mutual members have been advised will be collected.</p> <p>The amount is before deduction of the provisions for calls that will not be collected.</p> <p>Leave blank if "Status of policy year" is "Closed in previous years".</p>

# Bank of England PRA

CELL(S)	ITEM	INSTRUCTIONS
C0080	Estimated total calls	<p>Amount of the current estimate of total calls required to close the policy year. It includes all calls received, yet to be received and yet to be made at any time in the future.</p> <p>The amount should include any call that mutual members have been advised of that may be but is not certain to be made.</p> <p>The amount includes all calls due, whether collected or not.</p> <p>The amount may differ from the sum of the amounts in columns C0050, C0060 and C0070 if the directors of the firm expect to make an unbudgeted supplementary call.</p> <p>Leave blank if “Status of policy year” is “Closed in previous years”.</p>
C0090	Calls not collected	<p>For each policy year, the cumulative amount of calls either made or expected to be made that have either been written off or against which provision for non-collection has been made, whether specific to particular members or non-specific.</p>
C0100	Assumed reinsurance premiums	<p>Amount of premiums receivable in respect of assumed reinsurance contracts allocated to respective policy years, where the nature of the ceded risks are similar to the risks ceded by the class of mutual members.</p> <p>The amount does not include contributions for pooled claims due from other pool members under the pooling agreements.</p>
C0110	Fixed premiums receivable from mutual members	<p>The amount of ‘calls’ that are not assumed reinsurance and are not subject to supplementary calls, but where the nature of the ceded risks are similar to the risks ceded by the class of mutual members, and which are receivable from members who are subject to supplementary calls on any class of mutual members.</p>
C0120	Fixed premiums receivable from other than mutual members	<p>The amount of ‘calls’ that are not assumed reinsurance and are not subject to supplementary calls, but where the nature of the ceded risks are similar to the risks ceded by the class of mutual members, and which are receivable from policyholders who are not also mutual members.</p>

# Bank of England PRA

CELL(S)	ITEM	INSTRUCTIONS
C0130	Reinsurance premiums ceded (cumulative)	Reinsurance premiums ceded, including contributions to reinsurance placed in accordance with pooling agreements. Leave blank if "Status of policy year" is "Closed in previous years".
C0140	Net claims incurred (cumulative)	The cumulative amount of net claims incurred for the policy year. The amounts will include all claims approved or advanced allocated to the respective policy years, including those in respect of assumed reinsurance, share of other pool members claims, and fixed premium business. Recoveries of own claims from other pool members and other reinsurance ceded are deducted. Adjustments to claims originally allocated to previously closed policy years are allocated to oldest open year at the time of adjustment. Leave blank if "Status of policy year" is "Closed in previous years".
C0150	Net claims provisions	Claims provisions on a best estimate basis, undiscounted, for the policy year, net of reinsurance recoverable. Adjustments to claims originally allocated to previously closed policy years are allocated to oldest open year. Leave blank if "Status of policy year" is "Closed in previous years".
C0160	Number of members - Mutual members	The number of mutual members (members on whom supplementary calls may be made) in each class at the end of the policy year. Leave blank if "Status of policy year" is "Closed in previous years".
C0170	Number of members - Fixed premium members	The number of fixed premium members (on whom supplementary calls may not be made) allocated to each class at the end of the policy year. The number excludes members who are also mutual members. Leave blank if "Status of policy year" is "Closed in previous years".

# Bank of England PRA

CELL(S)	ITEM	INSTRUCTIONS
C0180	Number of members - Reinsured members	The number of reinsured members (members whose contract of insurance with the reporting firm is a contract of reinsurance) allocated to each class at the end of the policy year. Leave blank if "Status of policy year" is "Closed in previous years".
C0190	Tonnage entered by - Mutual members	For a firm covering its mutual members against risks in respect of vessels, the tonnage of shipping attributable to each class of members who are mutual members, covered at the end of the financial year. Other firms are not required to complete this. Leave blank if "Status of policy year" is "Closed in previous years".
C0200	Tonnage entered by - Fixed premium members	For a firm covering its mutual members against risks in respect of vessels, the tonnage of shipping attributable to each class of members who are fixed premium members, covered at the end of the financial year. Other firms are not required to complete this. Leave blank if "Status of policy year" is "Closed in previous years".
C0210	Tonnage entered by - Reinsured members	For a firm covering its mutual members against risks in respect of vessels, the tonnage of shipping attributable to each class of members who are reinsured members, covered at the end of the financial year. Other firms are not required to complete this. Leave blank if "Status of policy year" is "Closed in previous years".
