

Chapter 10

Instructions regarding reporting templates

IR.06.03 — Collective investment undertakings — look-through approach

General comments

This section relates to the quarterly and annual submission of information for individual entities and groups. Quarterly submissions are only required in quarters two and four for individual entities and in quarter four for groups.

This template contains information on the look through of collective investment undertakings or investments packaged as funds, including when they are participations, by underlying asset category, country of issue, and currency. Considering proportionality and specific instructions of the template, the look through shall be performed until the asset categories, countries, and currencies are identified. In case of funds of funds the look-through shall follow the same approach.

The template shall include information corresponding to 100% of the value invested in collective investment undertakings. However, for the identification of countries the look-through shall be implemented in order to identify the exposures of 90% of the total value of the funds minus the amounts relating to CIC category 8 and category 9, and for the identification of currencies the look-through shall be implemented in order to identify the exposures of 90% of the total value of the funds. Undertakings shall ensure that the 10% not identified by country is diversified across geographical areas, for example that not more than 5% is in one single country. The look-through shall be applied by undertakings starting from the major, considering the amount invested, to the lowest single fund and the approach shall be kept consistent over time.

Quarterly information shall only be reported when the ratio of collective investments undertakings held by the undertaking to total investments, measured as the ratio between item C0010/R0180 of template IR.02.01 plus collective investments undertakings included in item C0010/R0220 of template IR.02.01 plus collective investments undertakings included in item C0010/R0090 and the sum of item C0010/R0070 and C0010/RC0220 of template IR.02.01, is higher than 30 %.

Items shall be reported with positive values unless otherwise stated in the respective instructions.

The asset categories and Complementary Identification Codes ('CIC') referred to in this template are set out in the Asset Category Tables and CIC Tables in the reporting instructions for IR.06.02 — List of assets and IR.08.01 — Open derivatives.

| | ITEM | INSTRUCTIONS |
|-------|---|---|
| C0010 | Collective Investments Undertaking ID Code and Type of code | Asset ID code using the following priority: |

Bank of England PRA

| | | |
|-------|---------------------------|---|
