## Chapter 10

### Instructions regarding reporting templates

#### IR.16.01 — Non-life annuities information

##### General comments

This section relates to annual submission of information for individual entities and third-country insurance undertakings in regard to branch operations.

This template shall not be reported for any accepted reinsurance business.

This template shall be reported only for annuities formally settled stemming from non-life contracts and relating to health insurance obligations and relating to insurance obligations other than health insurance obligations.

Formally settled as an annuity means that a legal process has ordered that the beneficiary is to receive payments as an annuity.

In the event that after an obligation has been formally settled as an annuity some of that obligation subsequently ends up being settled via a lump sum payment that was not in the original annuity payment order, that lump sum would be recorded as a payment in template IR.16.01; ie there is no movement of claims data out of template IR.16.01 and into IR.19.01.

For the purpose of this template 'allocated loss adjustment expenses (ALAE)' means: the costs of-processing and resolving claims that could be assignable to individual claim (eg legal and adjuster's fees).

Firms may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.

This template shall be reported by non-life line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, originating the annuity and by currency, considering the following specifications:

- i. If the best estimate for the annuity claims provisions on a discounted basis from one non-life line of business represents more than 3% of the total best estimate for all annuity claims provisions the information shall be reported with the following split by currencies in addition to the total for the line of business:
  - a) Amounts for any currency that represents more than 25 % of the best estimate for the annuity claims provisions on a discounted basis from that non-life line of business; or
  - b) Amounts for any currency that represents less than 25 % of the best estimate for the annuity claims provisions (discounted basis) from that non-life line of business but more than 5 % of total best estimate for all annuity claims provisions.
- ii. If the best estimate for the annuity claims provisions on a discounted basis from one non-life line of business represents less than 3 % of the total best estimate for

# Bank of England PRA

all annuity claims provisions no currency split is required, only the total for the line of business shall be reported;

iii. The information shall be reported in the original currency of the contracts unless otherwise specified.

As already specified above this template is interlinked with the non-life template IR.19.01. The sum of technical provisions in templates IR.16.01 and IR.19.01 for one non-life line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, represents the total claims best estimate originating from this line of business (also refer log to template IR.19.01). Historical data are required for information with reference to claims paid and RBNS claims amounts. For claims provisions, historical data starting from the firm's first reporting reference date on or after 31 December 2024 are required.

All or part of an obligation moves from IR.19.01 into IR.16.01, when both of the below conditions are met:

- i. All or part of the obligation has been formally settled as an annuity; and
- ii. a best estimate of an obligation formally settled as an annuity can be established using life techniques.

Year N is the reporting year.

	ITEM	INSTRUCTIONS
Z0010	The related non-life line of business	<p>Name of the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35. The origin of the liability (medical expense, income protection, workers' comp, motor liability etc.). All the figures in the template are stemming from the related line of business.</p> <p>The following close list shall be used:</p> <ol style="list-style-type: none"> <li>1 - Medical expense insurance</li> <li>2 - Income protection insurance</li> <li>3 - Workers' compensation insurance</li> <li>4 - Motor vehicle liability insurance</li> <li>5 - Other motor insurance</li> <li>6 - Marine, aviation and transport insurance</li> <li>7 - Fire and other damage to property insurance</li> <li>8 - General liability insurance</li> <li>9 - Credit and suretyship insurance</li> <li>10 - Legal expenses insurance</li> <li>11 - Assistance insurance</li> <li>12 - Miscellaneous financial loss insurance</li> </ol>

# Bank of England PRA

	ITEM	INSTRUCTIONS
Z0020	Accident year/Underwriting year	Report the standard used by the undertakings for reporting of claims development. The following close list shall be used: 1 — Accident year 2 — Underwriting year
Z0030	Currency	Identify the ISO 4217 alphabetic code of the settlement currency of the obligation. All amounts, not reported by currency, are reported in the undertaking's reporting currency.  This item shall be filled in with 'Total' when reporting the total for the line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35.
Z0040	Currency conversion	Identify if the information reported by currency is being reported in the original currency (default) or in the reporting currency (otherwise specified). The following close list shall be used: 1 — Original currency 2 — Reporting currency Only applicable when reporting by currency.
	Information on year N:	
C0010 / R0010	The average interest rate	The average interest rate used in percentage (as a decimal) for the end of year N
C0010 / R0020	The average duration of the obligations	Average duration in years on total obligations basis for the end of the year N
C0010 / R0030	The weighted average age of the beneficiaries	The weight shall be the Best Estimate for annuity claims provisions at the end of year N. Age of beneficiaries calculated on a weighted average for total obligations. The beneficiary is the person to whom the payments are reverting to, following the occurrence of a claim (that affects the insured person) which originates this type of payment. Information should be considered gross of reinsurance.
	Annuities information:	
C0013/R0040–R0190	RBNS prior to claim being designated a non-life annuity claim	The reported but not settled (RBNS) amount for the claim at the last quarter-end when the claim was allocated to the line of business reported in Z0010 (ie the last quarter end prior to the claim being designated a non-life annuity claim).  Eg suppose a firm has a 31 December year-end and the firm designated a non-life claim to be a non-life annuity claim on 29 August in a particular calendar year, the RBNS amount for this is to be the RBNS at 30 June in that calendar year.

# Bank of England PRA

	ITEM	INSTRUCTIONS
		This RBNS amount is to include 'allocated loss adjustment expenses'.
C0014/R0040–R0190	Lump sum paid when claim was designated a non-life annuity claim	Amount of any lump sum that the firm paid or agreed to pay on the date when the claim was designated a non-life annuity claim.
C0015/R0040–R0190	Undiscounted claims provisions established when claim was designated a non-life annuity claim	The undiscounted claims provision established on the date that the claim was designated a non-life annuity claim.  This amount is to include any provision for 'allocated loss adjustment expenses'.
C0016/R0040–R0190	Best Estimate (discounted basis) when claim was designated a non-life annuity claim	The discounted amount of the provision reported in column C0015
C0017/R0040–R0190	Amounts paid from when claim was designated a non-life annuity claim until start of year N	The amount paid between the date when the claim was designated a non-life annuity claim and the start of year N.  This amount includes annuity benefit payments and 'allocated loss adjustment expenses'.
C0020/R0040–R0190	Undiscounted annuity claims provisions at the start of year N	Amount of annuity claims best estimate stemming from non-life Insurance obligations at beginning of year N.
C0030/R0040–R0190	Undiscounted annuity claims provisions set up during year N	Total amount of annuity claims provisions stemming from non-life insurance obligations set up during year N as at the moment they were first set up (ie, where assumptions used were for the first time based on life techniques)  This is a part of technical provisions set up during year N (Net movements between new reserves during year N/release of reserves during year N).
C0040/R0040–R0190	Annuity payments paid during year N	Total amount of annuity payments stemming from non-life insurance obligations made during the calendar year N.
C0050/R0040–R0190	Undiscounted annuity claims provisions at the end of year N	Total amount of annuity claims provisions stemming from non-life insurance obligations at end of year N.
C0060/R0040–R0190	Number of annuities obligations at the end of year N	Number of non-life insurance annuity obligations.
C0070/R0040–R0190	Best Estimate for annuity claims provisions at the end	Best estimate covering annuities stemming from non-life insurance obligations at the end of calendar year N.

## Bank of England PRA

	ITEM	INSTRUCTIONS
	of year N (discounted basis)	Information should be considered gross of reinsurance.
C0020– C0070/R0200	Total	Total amount for all accident/underwriting years.  R0200 is the total of R0040 to R0900.

Effective from 31 December 2024
