Chapter 10

Instructions regarding reporting templates

IR.20.01 — Development of the distribution of the claims incurred

General comments

This section relates to annual submission of information for individual entities and third-country insurance undertakings in regard to branch operations.

This section provides an overview about the run-off/movement of non-life claims portfolios, in terms of both claims paid (split by different type of claims) and RBNS claims (as defined in IR.19.01).

RBNS claims should be reported undiscounted.

This template shall be reported for each non-life Line of Business, as defined in Annex I of the Delegated Regulation (EU) 2015/35, and considering the following specifications:

- i. Reporting by line of business: it is required to report direct lines of business 1-12. Firms shall report each direct line of business, or only the direct lines of business that represent a coverage of 90% of the non-life gross undiscounted claims provisions for direct business. In the case where a firm is reporting a coverage of 90%, the lines of business should be selected as follows:
 - The motor vehicle liability line of business should always be reported,
 - The general liability lines of business should always be reported,
 - For all other lines of business using a decreasing order of gross undiscounted claims provisions.

The negative technical provisions at the level of the line of business shall be considered with absolute value for the purpose of the calculation of the materiality of the above thresholds.

With regard to the number of claims to be reported, firms will use their specific definition. However, each claim shall be reported once by Line of Business. If any claim is closed and reopened during the year, it shall not be reported in the column 'Reopen Claims during the year' but it shall be reported in relevant column regarding 'Open Claims at the beginning of the year' or 'Claims reported during the year'.

For the purpose of this template 'allocated loss adjustment expenses (ALAE)' means: the costs of-processing and resolving claims that could be assignable to individual claim (eg legal and adjuster's fees).

Firms are required to report data on accident year or underwriting year basis. Firms may use accident or underwriting year according to how they manage each line of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, provided that they use the same year consistently, year on year.
