### Instructions regarding reporting templates

#### IR.22.01 — Impact of long term guarantees measures and transitionals

##### General comments

This section relates to annual submission of information for individual entities and groups.

This template is relevant when at least one long term guarantee measure or transitional is used by the undertaking.

This template shall reflect the impact on the financial positions when no transitional is used and each LTG measures or transitional is set to zero. For that purpose, a cumulative step-by-step approach shall be followed taking out each transitional and LTG measure one by one and without recalculating the impact of the remaining measures after each step.

The impacts need to be reported positive if they increase the amount of the item being reported and negative if they decrease the amount of the item (e.g. if amount of SCR increases or if amount of Own Funds increases then positive values shall be reported).

R0100 and R0110 are not required for groups.
