1 Overview

- 1.1 This statement is addressed to all firms regulated by the Prudential Regulation Authority (PRA) who are required to submit supervisory reports under the Regulatory Reporting, Close Links and Change in Control Parts of the PRA Rulebook. Its purpose is to set out the PRA's expectations for how firms should complete the data items and returns required by those Parts.
- Chapter 2 and Appendices 1, 3 and 4 of this SS took effect from 1 January 2016, except PRA101-103 which took effect from 1 October 2017 and PRA104-108 which took effect from 1 January 2018. PRA 101-103 instructions in Appendix 1 took effect from 5 December 2018. Certain items in Appendix 1 published on 7 August 2019 and 19 December 2019 will take effect from 1 March 2020.
- Appendix 2 took effect from 1 July 2017, with certain items published 30 September 2019 taking effect from 1 October 2020.
- Appendices 5 7 took effect from 7 March 2016.
- Appendix 8 took effect from 1 January 2018, with certain items published on 7 August 2019 taking effect from 1 June 2020.
- Appendix 9 took effect from 1 January 2019, with certain items published on 19 December 2019 taking effect from 1 June 2020.
- Appendix 10 took effect from 1 January 2019.
- Appendix 11 took effect from 1 July 2019 with certain items published on 17 June 2019 taking effect from 1 January 2020.
- Appendix 13 takes effect from 1 January 2020.
- Chapter 5 took effect from 29 December 2020.
- 1.2 This SS sets out the basis on which firms should complete data items and returns required under PRA rules. This is intended to ensure a consistent reporting framework to enable the PRA to use the information collected efficiently and effectively. It allows the PRA to meet its objective of promoting the safety and soundness of firms, as it enables the PRA to monitor firms' compliance with the requirement to maintain adequate financial resources, and with other requirements and standards under the regulatory system.
- 1.3 Chapter 2 sets out an example of how to interpret the reporting requirements where a firm carries out activities in more than one regulated activity group (RAG).

On 7 August 2019, this SS was updated – see the annex for full details.

1.4 The guidance on completing data items is set out in the following series of appendices:

2 Integrated regulatory reporting

- 2.1 This chapter is designed to assist firms to understand the reporting requirements set out in Chapter 2 of the Regulatory Reporting Part and in particular rules 2.1 2.3.
- 2.2 In the example of a UK bank that is not a FINREP firm or ring-fenced body, and that does not apply International Financial Reporting Standard 9 (IFRS 9), in RAG 1 that also carries on activities in RAG 5, overlaying the RAG 1 reporting requirements (Regulatory Reporting 7.1) with the requirements for a RAG 5 firm (Regulatory Reporting 11.2) gives the following:

RAG 1 requirements (7.1)	RAG 5 requirements (11.2)
Annual report and accounts	Annual report and accounts
Annual report and accounts of the mixed-activity holding	
company	
Solvency statement	
Balance sheet	Balance Sheet
Income statement / Statement of profit or loss	Income statement
Statement of Comprehensive income	

RAG 1 requirements (7.1)	RAG 5 requirements (11.2)
Market risk	
Market risk – supplementary [Deleted]	
Forecast data	
Solo consolidation data	
Interest rate gap report	
Sectoral information, including arrears and impairment	
IRB portfolio risk	
Daily Flows (Until 31 December 2019)	
Enhanced Mismatch Report (Until 31 December 2019)	
Cash flow mismatch (from 1 July 2019)	
Memorandum items	
	Lending - Business flow and rates
	Residential Lending to individuals - New business profile
	Lending - Arrears analysis
	Mortgage administration - Business profile
	Mortgage Administration - Arrears analysis
	Analysis of loans to customers
	Provisions analysis
	Fees and levies
	Sale and Rent back

- 2.3 In this case, it is more obvious that the firm's reporting requirement in RAG 1 is not all the data items listed above. However, for the purposes of this exercise, it is the list of potential data items that is important. Thus comparing RAG 1 with RAG 5, the additional reporting requirements are:
- (a) lending Business flow and rates, where Section D MLAR is required;
- (b) residential Lending to individuals New business profile, where Section E MLAR is required;
- (c) lending Arrears analysis, where Section F MLAR is required;
- (d) mortgage administration Business profile, where Section G MLAR is required;
- (e) mortgage administration Arrears analysis, where Section H MLAR is required;
- (f) analysis of loans to customers, where Section A3 of MLAR is required;
- (g) provisions analysis, where Section B2 of MLAR is required; and
- (h) sale and rent back, where Section K of the MLAR is required.

- 2.4 Fees and levies are not applicable as Regulatory Reporting 2.3 states that they are not required to be submitted under the lowest numbered RAG in this example.
- 2.5 The reporting frequency and submission times for items (a) to (h) above are then derived from the rules applicable to RAG 5 firms in Regulatory Reporting 11.2.

3 Accounting standards

3.1 The PRA may periodically request that firms provide the PRA with details of the accounting standard they use, including options chosen within this.

4 Waiver from individual reporting of certain FINREP templates

4.1 In the example of a UK bank or building society that forms part of a UK consolidation group (other than a group subject to ring-fencing), the PRA may, upon the fulfilment of certain criteria, grant a waiver from the requirement to report the following FINREP templates (included in Appendix 8) on an individual basis:

- 4.2 A firm may apply for a waiver from the individual requirements above if during the two most recent successive reporting periods set out in Regulatory Reporting 7.2, one entity within the UK consolidation group contributes between 90% and 95% of the total assets of the consolidation group (once intragroup assets have been deducted). When considering whether to grant the waiver, supervisors will make a qualitative assessment about the alignment of the business models of the individual entity and the group to determine whether it is appropriate to only collect consolidated data.
- 4.3 Any firm granted a waiver from those requirements on an individual basis must still report those templates on a consolidated basis, in accordance with Regulatory Reporting 7.1. One firm within the UK consolidation group should request the waiver on behalf of all firms in the group that require it. Details of the waiver are available on the PRA's webpages.²

5 Third-country branch reporting

- 5.1 This chapter is relevant to non-UK deposit-takers in respect of their operations in the United Kingdom through branches known as 'third-country branches'. It sets out the PRA's expectations for the regulatory reporting of third-country branches and how these firms are able to comply with Regulatory Reporting 22.4. This chapter covers reporting on:
- liquid assets available to the branch;
- own funds that are at the disposal of the branch;
- deposit protection arrangements;
- risk management arrangements;
- governance arrangements, including key function holders; and
- recovery plans covering the branch.

Information on the liquid assets available to the branch, in particular availability of liquid assets in Member State currencies (Regulatory Reporting 22.4 (1))

5.2 A third-country branch is expected to submit to the PRA liquidity³ information at the whole-firm level, based upon data which is reported to the firm's home state supervisor. Where this contains information on significant currency basis, the PRA considers that this is sufficient to meet the requirement set out in Regulatory Reporting 22.4(1). Otherwise, firms should provide this information on an annual basis by email to their usual supervisory contact alongside the submission of their liquidity information.

The own funds that are at the disposal of the branch (Regulatory Reporting 22.4(2))

5.3 Under Regulatory Reporting 7.1, non-UK banks are required to submit to the PRA their annual report and accounts. Where this contains information about own funds that are at the whole-entity level, the PRA considers that this is sufficient to meet the requirement set out in Regulatory Reporting 22.4(2). Otherwise, firms should provide this information by email to their usual supervisory contact alongside the submission of their annual reports and accounts.

The deposit protection arrangements available to depositors in the branch (Regulatory Reporting 22.4(3))

5.4 The Branch Return requires information about total deposits covered by the FSCS and those by other deposit insurance schemes. The PRA expects firms to provide names of the 'other deposit insurance schemes' where they have reported a non-zero amount of deposits covered by these schemes. Firms should provide this information by email to their usual supervisory contact alongside the submission of their branch return. The PRA considers that this is sufficient to meet the requirement set out in Regulatory Reporting 22.4(3).

The risk management arrangements (Regulatory Reporting 22.4(4))

5.5 Under Allocation of Responsibilities 7.1, firms are required at all times to have a comprehensive and up-to-date single document (a 'management responsibilities map') that describes the firm's management and governance arrangements.⁴ Where this contains information about the risk management arrangements of the branch, the PRA considers that this is sufficient to meet the requirement set out in Regulatory Reporting 22.4(4). Otherwise, firms should provide this information by email to their usual supervisory contact. The firm should either confirm on an annual basis that the management responsibilities map or the information provided separately remains up to date, or should provide updated information.

The governance arrangements, including key function holders for the activities of the branch (Regulatory Reporting 22.4(5))

5.6 Where the management responsibilities map contains information about the governance arrangements of the branch, the PRA considers that this is sufficient to meet the requirement set out in Regulatory Reporting 22.4(5). Otherwise, firms should provide this information by email to their usual supervisory contact. Following their last submission, a third country branch should confirm on an annual basis that the management responsibilities map remains up to date.

The recovery plans covering the branch (Regulatory Reporting 22.4(6))

5.7 The PRA expects a third country branch to share their group recovery plan, or the relevant sections of it, with their usual supervisory contact. Where the recovery plan is not provided to the

PRA Supervisory Statement 1/17, 'Supervising international banks: the PRA's approach to branch supervision – liquidity reporting', February 2017: https://www.bankofengland.co.uk/prudential-regulation/publication/2017/supervising-international-banks-the-pras-approach-to-branch-supervision-liquidity-reporting-ss.

home resolution authority in English, firms are expected to translate the relevant sections of this prior to submission to the PRA. The PRA considers that this is sufficient to meet the requirement set out in Regulatory Reporting 22.4(6). Firms should submit recovery plans as they stand at their accounting reference date by email to their supervisory contact.

- 5.8 Where a recovery plan cannot be shared or does not provide adequate details of the recovery strategy for the branch, firms should provide a brief summary of the recovery plan including the following information:
 - A list of the indicators that would trigger initiation of the recovery plan
 - A list of recovery options relevant to the branch (with a brief description of each)
 - Description of coordination arrangements between the group and UK branch with respect to recovery plan
 - Description of the communication plan with the home and host authority when the recovery plan is likely to be or has been triggered
- 5.9 Where the home state regulator does not require the preparation of a recovery plan covering the entity to which the branch belongs, a third country branch should confirm this on an annual basis by email to their usual supervisory contact. Firms should submit recovery plans as set out in paragraph 5.7 or 5.8 above, if these become a requirement by the home state regulator in the future.
