

STATISTICAL ANNEX

Note.—The following changes have been made in the Statistical Annex :

Table 14 : Accepting Houses and Overseas Banks in the United Kingdom

This is a new table giving aggregated figures for the accepting houses and overseas banks in the United Kingdom; it also divides deposit liabilities (other than to U.K. banks) and advances into those denominated in sterling and those in other currencies—including currencies of overseas sterling countries.

Table 15 : Accepting Houses and

Table 16 : Overseas Banks in the United Kingdom

Deposit liabilities to U.K. banks are shown separately. From 31st March 1964 ten new contributors are included in Table 16D (see page 168).

(e) From 1961 includes re-financeable export credits transferred from "Advances to customers and other accounts".

(f) See Additional Notes to Table 6, page 167.

(g) Excluding items in transit and, from 1961, re-financeable export credits (see note (e)). The figures for 1961 were also affected by the reclassification of assets (see note (d)).

(h) Figures for the nationalised industries, which are defined in the Additional Notes, page 168, are supplied by H.M. Treasury.

(i) See Additional Notes, page 168. Figures for the latest months are provisional.

(j) Before 1961 figures included business of Lloyds Bank's Eastern branches.

(a) In December 1959 the figures relate to dates, varying from bank to bank, between the middle and end of the month.

(b) Of which the "authorised" circulation was 2.7 at all dates shown, the remainder being covered by Bank of England notes and coin.

(c) Gross deposits less items in transit between offices of the same bank. Net deposits were discussed in an article on page 285 of Volume III, No. 4, of this *Bulletin*.

(d) Coin, notes and balances with Bank of England (excluding Special Deposits), balances with other banks, money at call and short notice, and bills discounted.

(e) Includes cover for Scottish bank notes in excess of the "authorised" circulation, and also banks' holdings of each other's notes.

(*f*) Balances with, and cheques in course of collection on, other banks in the United Kingdom (and, before December 1961, the Republic of Ireland); includes items in transit in December 1959.

(*g*) From 1961 includes re-financeable export credits transferred from "Advances and other accounts".

(*h*) See Additional Notes to Table 6, page 167.

(*i*) Excluding, from 1961, re-financeable export credits (see note (*g*)).

(*j*) Figures for the nationalised industries, which are defined in the Additional Notes to Table 10, page 168, are supplied by H.M. Treasury. In 1959 they related to the 16th December and in 1960 to the 14th December; thereafter they are at the dates shown. The residual figures of "Advances other than to nationalised industries" are therefore not exact in December 1959 and 1960.

(a) The figures cover all banking offices situated in Northern Ireland, other than those of The National Bank. For details of the changes in definition of certain assets after March 1963 see Additional Notes, page 168.

(b) Before the 16th April 1963 the figures relate mainly to the 30th June and the 31st December and dates in the middle of other months.

(c) The figures before March 1963 are averages of notes outstanding on Saturdays in periods of four consecutive weeks. Before April 1963 the figures also include notes issued by The National Bank, which is otherwise excluded from the table. The "authorised" circulation was approximately 2 at all dates shown, the remainder being covered by Bank of England notes and coin.

(d) Coin, notes and balances with Bank of England. The total includes cover for the note issues of the Northern Ireland banks in excess of the "authorised" circulation, and banks' holdings of each other's notes.

(e) Balances with, and cheques in course of collection on, other banks in the United Kingdom and items in transit between offices of the same bank. Before April 1963, the figures include some balances outside the United Kingdom.

(a) Average rate of discount on allotment for 91-day Bills at the weekly tender.

(b) The rate at which trade bills are discounted depends upon their quality. The figures shown are market rates for bills of good average quality. Some trade bills are discounted at lower rates.

(c) Minimum rate of interest charged for loans to the discount market.

(d) Spread of fluctuating rates quoted for new deposits by some of the main hire purchase finance houses. (Fluctuating rates are quoted as a fixed premium or discount on Bank Rate and therefore move with Bank Rate during the currency of the deposit) Rates are to some extent subject to negotiation and different rates may be paid on large amounts.

(e) For a minimum term of three months and thereafter at seven days' notice.

ADDITIONAL NOTES TO THE TABLES

Sources

Statistics taken from publications of H.M. Government are reproduced by permission of the Controller of H.M. Stationery Office. Particular acknowledgment is made to H.M. Treasury for the use of the figures of Exchequer financing in Table 1.

Acknowledgment is also made to the banks and other institutions which have made material available to the Bank, and to the following bodies which have allowed the Bank to reprint statistics compiled by them or have assisted the Bank in the collection of statistics from their members:

- The London Discount Market Association
- The Committee of London Clearing Bankers
- The Committee of Scottish Bank General Managers
- The Northern Ireland Bankers' Association
- The British Bankers' Association

Table 1 : Exchequer

This table first shows, for calendar quarters, the net sterling requirements of the Exchequer Group. The Exchequer Group comprises the Exchequer, the Paymaster General, the National Debt Commissioners, the Exchange Equalisation Account and the Issue Department of the Bank of England. Its need for sterling may arise from net budgetary or extra-budgetary expenditure, from net purchases of foreign currencies or gold by the Exchange Equalisation Account, or from net sterling payments in connection with certain other overseas transactions.

The table then goes on to show what changes there have been during the same period in the Group's indebtedness to the Banking Department of the Bank of England and in the public's holdings of Bank of England notes and of government debt.

The figures for "Stocks" include net official sales of government guaranteed stocks (principally those of the nationalised industries) as well as of government stocks.

Further notes and definitions relating to this table are given in the January issue of *Financial Statistics*.

Table 2 : Analysis of Government Borrowing by Source

Table 3 : Holdings of Marketable Government Debt

In Table 2 the figures in the financing part of Table 1 are rearranged and sub-divided to distinguish between changes in the holdings of the banking sector (see Table 9), of overseas holders and of others. Although neither the banking sector's nor overseas holdings of non-marketable debt are known, they are believed to be very small, and the total change in such debt is therefore attributed to "Other holders". The figures of Bank of England notes held by the banking sector include some coin and Scottish and Irish bank notes; this also affects the residual figures for "Other holders".

Table 3 gives a further analysis by type of holder of the changes in the public's holdings of government stocks and of Treasury Bills. Changes in holdings of stocks are shown at cash value except for those of the banking sector where the figures relate to changes in book value.

The figures for overseas holders in both tables are based partly on the series of United Kingdom external liabilities and claims in sterling (see Table 24) and partly on information extracted from the registers of government stocks; they should not be regarded as more than broad estimates, any error being reflected in the figures for "Other holders". The category "Central monetary institutions" covers the holdings of central banks, currency boards,

the General and Note Security Funds of the Crown Agents, the Bank for International Settlements and a few other accounts known to be used for central monetary purposes. The figures for central monetary institutions' holdings of Treasury Bills include certain Bills issued as counterpart for foreign currency deposits by such institutions. Since the U.K. liability was not in sterling these Bills are not included in Table 24.

Table 4: Tax Reserve Certificates

The figures for issues of Tax Reserve Certificates to persons and surrenders by persons are taken from the Bank's records. Most applications for Tax Reserve Certificates reach the Bank of England through a commercial bank, and the applicant's bank account is debited a few days before the subscription is transferred to the Exchequer. As the figures of issues are designed to be used with other statistics of personal savings in the national income accounts, it is desirable that they should relate so far as possible to the date of debiting the account. For this reason, all applications from persons received at the Bank during the first three working days of a quarter are included in the figures for the previous quarter.

The figures for other holders are calculated by subtracting the figures for persons from the total amounts received into or paid out of the Exchequer in each calendar quarter on account of Tax Reserve Certificates. So far as issues are concerned, therefore, the figures for other holders reflect the three-day difference of timing between the Exchequer returns and the figures for persons.

Comparable figures for 1957 to 1959 are given on page 185 of Volume II, No. 3, of this *Bulletin*, at the end of an article about Tax Reserve Certificates.

Table 6: Bank of England

Special Deposits are called by the Bank of England, under the scheme announced in July 1958, from the London clearing banks and the Scottish banks and are not at their free disposal. A full description of the scheme is given in Volume I, No. 1, of this *Bulletin*, and the dates and percentages of the calls and releases of Special Deposits are given in Volume III, No. 1, page 77.

Table 7: Discount Market

The discount market is defined as the members of the London Discount Market Association. "Other domestic banks" comprise the Northern Ireland banks (U.K. offices) and those banks listed in footnote ^(b) on page 288 of Volume III, No. 4, of this *Bulletin*; their figures were included in "Other sources" before the 30th June 1963. Accepting houses and overseas banks, before the 30th June 1963, were defined as banks whose main business was conducted outside the British Isles; from the 30th June 1963 they comprise the accepting houses and overseas banks whose figures are summarised in Table 14.

Table 9: The United Kingdom Banking Sector

This table continues the series of statistics first published in Volume III, No. 4, of this *Bulletin*, and described on pages 288 and 289 of that issue. The figures, which are confined to U.K. offices of the reporting banks, are designed to show transactions between the banks and their non-bank customers. They therefore exclude the banks' own internal funds, all inter-bank items, and transactions between the banks and the discount market; and advances are shown gross, before provision for bad and doubtful debts.

The domestic banks are the London clearing banks, Scottish banks, Northern Ireland banks (U.K. offices only), the Banking Department of the Bank of England, and certain other banks listed in footnote ^(b) on page 288 of Volume III, No. 4.

The accepting houses and overseas banks and the members of the discount market are those institutions whose figures appear, respectively, in Tables 14 and 7 of the Statistical Annex. The figures shown in Table 9 differ from those in Tables 7 and 14, mainly because the items which are there shown together under "Other assets" are here allocated to the appropriate headings.

Net Exchequer indebtedness to the Bank of England, Banking Department comprises the Banking Department's holdings of government debt and Bank of England notes, less the deposits of the Exchequer and the Paymaster General with the Bank.

Table 10 : London Clearing Banks

The ratio of total liquid assets to gross deposits (the liquidity ratio) is the clearing banks' conventional measure of their liquidity; it does not take account of the extent to which they may hold other assets of comparable liquidity (see the article in Volume II, No. 4, of this *Bulletin*).

The nationalised industries comprise those portions of the coal, transport, airways, gas and electricity industries which are in public ownership and to which bank advances may be made under Treasury Guarantee.

The seasonally-adjusted figures for net deposits and for advances (other than to nationalised industries) are calculated on the War Office computer, using the modified version of Census Method II described on page 95 of Volume III, No. 2. The series should not be regarded as exact and are published to the nearest £5 million. Estimates for the months after September 1963 are obtained by extrapolation and are provisional.

Table 12 : Northern Ireland Banks

The Northern Ireland banks to which this table relates are the members of the Northern Ireland Bankers' Association other than The National Bank Limited (whose figures are included in Table 10). The Association's members are the only commercial banks operating in Northern Ireland.

Until April 1963 the division of certain assets between offices of these banks in the United Kingdom and those in the Republic of Ireland was not known. Consequently, until March 1963, the figures of these assets—balances with Bank of England (included in cash), money at call and short notice, Treasury Bills and investments—represented a proportion of the banks' total holdings of such assets equal to the proportion of their total current and deposit accounts which was held at each date by offices in Northern Ireland. From 16th April 1963 the series has been revised to include assets held by U.K. offices only.

Table 13 : Analysis of Bank Advances

The figures relate to all advances made by member banks of the British Bankers' Association through offices located within Great

Britain, irrespective of the borrower's country of residence. The figures for the London clearing banks and, except for February 1960, for the Scottish banks relate mainly to the third Wednesday in the month; those for other member banks (and for the Scottish banks in February 1960) relate to various dates, mostly about the middle of the month. The definition of advances excludes bills discounted, foreign bills negotiated or bought, and "impersonal" or "internal" accounts. Except for the "personal" advances included in the "Personal and professional" category, the classification is based on the business of the borrower and no account is taken of the object of the advance or the nature of the security held.

Some discussion of the seasonal influences which affect this series was published in Volume III, No. 3, of this *Bulletin*.

Table 14 : Accepting Houses and Overseas Banks in the United Kingdom

This table summarises the figures of the contributors to Tables 15 and 16, and gives separate figures for deposits (other than to U.K. banks) and advances in sterling and in other currencies. The figures are not comparable with those shown in the table on page 101; apart from minor differences of definition, the coverage of banks is less comprehensive and currencies of overseas sterling countries are included in this table but excluded from that on page 101.

Table 15 : Accepting Houses**Table 16 : Overseas Banks in the United Kingdom**

A list of contributors to Table 16D is given in Volume II, No. 4, of this *Bulletin*. Subsequent additions are, from 31st March 1963, Bank Saderat va Ma'aden Iran, and, from 31st March 1964, Daiwa Bank Limited, French Bank of Southern Africa Limited, International Credit Bank Geneva, Leopold Joseph & Sons Limited, Overseas Union Bank Limited, Singer & Friedlander Limited, Tokai Bank Limited, Ullmann & Co. Limited, United Bank Limited and Westminster Foreign Bank Limited. The contributing institutions to the other tables are those which, at the dates shown, were members of the following groups :

Table 15 : The Accepting Houses Committee

Table 16A: The British Overseas and Commonwealth Banks Association (but excluding British and French Bank Limited, which is a contributor to Table 16C)

Table 16B: The American Banks in London

Table 16C: The Foreign Banks and Affiliates Association.

The figures cover the business of all offices of the banks within the United Kingdom. Brief notes on certain items are given below. Fuller notes will be found in Volume II, No. 4.

(a) Current and deposit accounts: sterling equivalents of foreign currency deposits are included. From September 1962 the figures include, in addition to the banks' deposit liabilities, their liabilities on loans and advances (including money at call and short notice) received from other U.K. banks, and their net liabilities on internal accounts to their offices, or to their head office, overseas.

(b) Balances with other U.K. banks: all balances, in sterling and in foreign currency, with other U.K. banks; together with loans and advances to those banks (including any money lent at call or short notice), some of which may have been excluded before September 1962. U.K. banks are defined as the U.K. offices of the banks contributing to these tables together with the domestic banks whose figures appear in Table 9.

(c) Money at call and short notice: loans to the discount market comprise all money lent to the members of the London Discount Market Association.

(d) Loans to U.K. local authorities: all deposits with, and loans and advances made to, U.K. local authorities, but excluding any money placed by the banks with local authorities where the banks are acting solely as agents and have no corresponding deposit liabilities.

(e) British government and government guaranteed securities: the figures are given at book value or cost.

(f) Advances: amounts outstanding, in sterling and in foreign currency, on loan and

overdrawn accounts; and the banks' foreign currency balances with banks and financial institutions overseas. Loans to U.K. local authorities are excluded. From September 1962 the figures are shown without deduction of provisions for bad and doubtful debts, and exclude advances to other U.K. banks.

(g) Other assets: sterling securities, other than British government and government guaranteed securities, and, from September 1962, foreign currency assets not included elsewhere (such as investments and discounted bills denominated in currencies other than sterling). Before September 1962 trade investments are excluded.

Table 19: Capital Issues on the United Kingdom Market

The estimates relate to new money raised by issues of ordinary, preference and loan capital (public issues, offers for sale, issues by tender, placings, and issues to shareholders and employees) by quoted public companies and local authorities in the United Kingdom and by overseas public companies and public authorities (including local authorities and international organisations). Mortgages, bank advances and any other loans redeemable in twelve months or less are excluded, as also are loans from U.K. government funds. Issues to shareholders are included only if the sole or principal share register is maintained in the United Kingdom. Estimates of the amounts raised are based on the prices at which securities are offered to the market. Subscriptions are recorded under the periods in which they are due to be paid. Redemptions relate to fixed interest securities of the kinds included as issues; conversions are included in the gross figures of both issues and redemptions.

The division between U.K. and overseas company borrowers is determined by the location of the registered office. U.K. "Local authorities" include, in addition to local governments, such public bodies as water, dock and harbour boards. "Special finance agencies" are quoted public companies engaged in the provision of medium and long-term finance to industry (*e.g.*, I.C.F.C.). The industrial classification in Part C of the table is according to the primary occupation of the

borrowing company or group and is based on the *Standard Industrial Classification* (H.M.S.O., revised 1958).

Issues in foreign currencies are included to the extent that :

- (i) U.K. institutions took a leading part in arranging them; and
- (ii) subscriptions are estimated to have been made in the United Kingdom.

Volume I, No. 5, of this *Bulletin* contains a fuller description of the estimates.

Table 20 : Investment Trusts

The investment trusts contributing returns are members of the Association of Investment Trusts and other companies listed as investment trusts by the London Stock Exchange. The figures are provisional.

Net current assets do not take account of contingent assets and liabilities such as claims on, or sums due to, the Inland Revenue, or the accrued liability for loan interest. They do include, however, (in "Other short-term assets in the United Kingdom" or "Other short-term borrowing in the United Kingdom") sums due from or to stockbrokers on account of securities sold or purchased and still awaiting settlement.

Table 21 : Unit Trusts

The returns cover all unit trusts authorised by the Board of Trade under the Prevention of Fraud (Investments) Act, 1958. They are collected in the main through the Association of Unit Trust Managers, but include also those of trusts whose managers are not members of the Association.

Table 24 : United Kingdom External Liabilities and Claims in Sterling

These comprise :

- (i) *U.K. liabilities*
 - (a) Deposits, U.K. Treasury Bills, commercial bills and promissory notes held for overseas banks

(including overseas offices of U.K. banks), central banks and other account holders abroad by banks and their nominee companies in the United Kingdom (including the Bank of England, accepting houses, discount houses, the U.K. offices of Commonwealth and foreign banks and certain other financial institutions); British government and government guaranteed stocks held for account of overseas banks and central monetary institutions are also included, at nominal values, but not those held by other official bodies, private individuals and firms.

- (b) Sterling funds held with the Crown Agents for Oversea Governments and Administrations and by currency boards, excluding investments in Commonwealth and South African sterling securities and in U.K. local authority mortgages and securities, and excluding British government and government guaranteed stocks held in the Special Funds.

- (ii) *U.K. claims*

Claims of banks in the United Kingdom payable in sterling, including acceptances outstanding under acceptance credit facilities granted, and sterling commercial bills and promissory notes held for U.K. customers payable by overseas residents.

A description of the contents and definitions of this series, and a comparison with the "Overseas Sterling Holdings" series, now discontinued, appeared in Volume III, No. 2, of this *Bulletin* and a further, largely historical, review entitled "Overseas Sterling Holdings" appeared in Volume III, No. 4.
