**Bank of England Quarterly Bulletin  
Volume 10 1970**

## Index

In the main, this index covers the material which regularly forms part of each issue of the *Bulletin* – the Commentary, analysis of financial statistics, and the statistical annex – though it also includes statistical information contained in articles.

Summaries of the articles themselves are given separately.

### Commentary

The Commentary reviews events and assesses prospects. The four Commentaries in Volume 10 for the most part cover the following periods:

|                            |         |
|----------------------------|---------|
| November 1969–January 1970 | 3–17    |
| February–April             | 119–35  |
| May–July                   | 253–68  |
| August–October             | 383–401 |

*References in bold type are to the principal topics included in the Commentary. Other references are to particular developments or features.*

## Analysis of financial statistics

The quarterly analysis of financial statistics assesses the financial transactions of the main sectors of the economy – public sector, personal sector, industrial and commercial companies, banking sector, other financial institutions and overseas. Each analysis is centred on a particular quarter, named below, but it also ranges into earlier quarters and where figures are available into the following quarter – in the latter case principally in connection with banking sector figures, including money supply and domestic credit.

|                  |         |
|------------------|---------|
| 3rd quarter 1969 | 18–30   |
| 4th quarter 1969 | 138–158 |
| 1st quarter 1970 | 269–284 |
| 2nd quarter 1970 | 402–418 |

The quarterly sector tables in the text employ seasonally adjusted figures. At the end of each analysis is a detailed matrix built up from unadjusted figures. A special table covering domestic credit and the money supply gives both adjusted and unadjusted figures. Notes on sources and definitions appear in each issue, together with an explanatory note on the seasonal adjustments.
