Statistical annex

The table numbers, shown in bold, apply to the issue cited; where no issue is given, they apply throughout the year. For the flow of funds tables, references to the June issue are to the pages of the article 'Sector financing'. Similarly, page references are given to the September issue when the table for the 'Components of private sector liquidity' was introduced. The additional notes, and the summary of changes which appears on the contents list to the statistical annex, should be consulted for details and changes made each quarter.
