Additional notes to the tables

Notes and definitions to the tables appear in full in the March issue. Only changes since March are published in this issue.

Symbols and conventions

... not available

— nil or less than half the final digit shown.

... figures above and below are not strictly comparable.

Owing to rounding of figures, the sum of the separate items will sometimes differ from the total shown.

'Government stocks' comprise British government and government-guaranteed stocks (now only those of the gas and electricity industries).

Longer series and data on magnetic tape

For those who prefer to have data in machine-readable form, a magnetic tape service is available covering most of the tables currently included in the statistical annex as well as many of the series which were discontinued with effect from the March 1979 issue. The machine-readable data contain longer runs, and, in some cases, more frequent observations and additional details; longer runs can also be supplied on computer printout in response to specific requests. Further information regarding this service may be obtained from the Bank at the address given on the reverse of the contents page.

Changes occur from time to time in the monthly reporting population, the following affecting the figures for 1985:

	Number of institutions		Net increase in:	
	Joining	Leaving	Sterling assets	Foreign currency assets
At mid-month			£ millions	£ millions
1985 March	8	2	161	1,425
June	7	1	164	374

6 UK monetary sector

In addition to the monthly-reporting institutions included in Tables 3 and 4, this table also includes a number of institutions which report only quarterly. It also includes figures for those smaller institutions which complete less detailed quarterly returns; these figures have been included in levels with effect from 1983 1st quarter and transactions in periods from 1983 2nd quarter. Where appropriate, the effects of changes in the reporting population have been excluded from the transactions figures. The figures of one large investment trust which has had a deposit-taking licence since 1980 are included throughout in the 'Other financial institutions' sector aggregates (see Table 19.5).

The effects of changes occurring in the quarterly reporting population during 1985 have been excluded, and are as follows:

	Number of institutions		Net effect on:	
	Joining	Leaving	Sterling assets	Foreign currency assets
At end-quarter			£ millions	£ millions
1985 March	5	5	158	1,021
June	4	6	-147	-192

11.1 to 11.3 Money stock

The details of coverage and changes in the reporting population are given in the notes to Table 6.

Table 11.3

Net non-deposit sterling liabilities

This comprises changes in the sterling component of capital and internal funds and reserves of all monetary sector institutions, less their sterling investments in UK banks and other non-financial sterling assets, together with residual errors arising from the exclusion of sterling transactions between institutions within the sector. This item replaces 'net non-deposit liabilities' which comprised changes in both sterling and foreign currency items (see the box in 'Operation of monetary policy' in the June 1985 *Bulletin*). Total net non-deposit liabilities (in sterling and foreign currency) are shown in Table 6.

External and foreign currency counterparts

This now includes changes in the foreign currency component of capital, internal funds and reserves of all monetary sector institutions, less their foreign currency investments in UK banks and other non-financial assets in currencies other than sterling; these items were formerly included in 'net non-deposit liabilities'. Changes in these items are calculated in transactions terms, that is after an adjustment has been made for the estimated effect of changes in the sterling value of foreign currencies.

External and foreign currency transactions of UK banks

In the 'alternative presentation' of Table 11.3 this item has been changed in the same way as the 'external and foreign currency counterparts'.

Banks' net foreign currency liabilities

In the supplementary details' to Table 11.3 this item, formerly described as 'banks' net foreign currency deposit liabilities', has been changed in the same way as 'external and foreign currency counterparts'.

3.1 to 3.8 UK banks' balance sheets

Some smaller institutions report at end-quarters only; the coverage of some of the groups in these tables is therefore not complete. The groups affected are Accepting houses, Other British, American, Other overseas, and Consortium banks, but in no case is the coverage of total liabilities/assets less than 97.5%.

14

UK monetary sector and other financial institutions: external liabilities and claims

This table now includes figures for smaller monetary sector institutions which complete less detailed quarterly returns: see also the notes to Table 6.

16

External liabilities and claims in sterling reported by UK monetary sector and other financial institutions

With effect from 1983 1st quarter this table now includes figures for smaller monetary sector institutions which complete less detailed quarterly returns: see also the notes to Table 6.
