## Money and Credit: October 2017

### Part one: Broad money and credit

- Broad money increased by £3.6 billion in October (**Table A**). Within this, the flow of household M4 was the largest contributor at £3.1 billion (**Table B**).
- The net flow of sterling credit fell to £2.6 billion in October (**Table A**). Lending to households and private non-financial corporations (PNFCs) was £3.8 billion, broadly in line with the previous month (**Table B and C**).

## Money and Credit: October 2017

### Part two: Lending to individuals

- Net lending secured on dwellings was broadly unchanged at £3.4 billion in October (**Table H**). Underlying this were increases in gross lending and repayments due to increases in remortgaging activity.
- Total mortgage approvals increased slightly in October (**Table I**). Within this, remortgaging approvals increased to 51,593, the highest since October 2008. House purchase mortgage approvals fell slightly to 64,575 in October.
- The annual growth rate of consumer credit was broadly unchanged at 9.6% in October (**Table J**).

**Table G: Lending to individuals**

(a) The total changes in loans for the industries included within **Table N** and **Table O** may not equal those in **Table F**. Further information on the data sources underlying these Tables and the SIC codes associated with the series included are available at:

[www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/loans\\_to\\_non-financial\\_businesses.aspx](http://www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/loans_to_non-financial_businesses.aspx).

(b) Small and medium sized enterprises (SMEs) are those businesses with annual debit account turnover on the main business account less than £25 million.

(c) Changes are gross lending minus repayments, plus changes in overdrafts.

## Technical notes

### General

- 1 The Statistical Interactive Database, IADB, ([www.bankofengland.co.uk/boeapps/iadb/NewIntermed.asp](http://www.bankofengland.co.uk/boeapps/iadb/NewIntermed.asp)) provides long runs of statistical data with comprehensive search options and the ability to download these in a variety of formats. The series codes are listed in the tables in this release. Tables providing more detailed breakdowns of data, including quarterly data, are also available in Bank of England *Bankstats (Monetary & Financial Statistics)* ([www.bankofengland.co.uk/statistics/Pages/bankstats/default.aspx](http://www.bankofengland.co.uk/statistics/Pages/bankstats/default.aspx)).
- 2 Further information on the definition of 'changes', the treatment of break effects and the calculation of growth rates can be found at [www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/Changes\\_flows\\_growth\\_rates.aspx](http://www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/Changes_flows_growth_rates.aspx). Movements in amounts outstanding can reflect breaks in data series as well as underlying flows. Users requiring data for amounts outstanding series on a break-adjusted basis should refer to [www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/Break\\_adjusted\\_levels\\_data.aspx](http://www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/Break_adjusted_levels_data.aspx). For changes and growth rates data, users are recommended to refer directly to the appropriate series or data tables.
- 3 Monetary Financial Institutions (MFIs) are defined as UK-resident banks and building societies. Money and credit data, including the industrial analysis of deposits and lending, exclude inter-MFI deposits and lending.
- 4 All tables in this statistical release have UK coverage, meaning that they relate to deposits of, or credit to, UK residents only. Loans include MFIs' loans and advances including under reverse repos, to the non-MFI sector. Deposits includes MFIs' liabilities under repo positions.
- 5 Tables showing data for totals and components of totals may be subject to rounding effects.
- 6 When the 'direct method' of seasonal adjustment is used for a totals series, the seasonally adjusted total need not correspond to the sum of its seasonally adjusted components. Under the alternative 'indirect' method, however, this equality is preserved. The choice of application of the 'direct' or 'indirect' method depends on an assessment of the seasonal adjustment criteria in any particular case. For more details please see Annex A, *Bankstats*, September 2010, 'Seasonal adjustment of quarterly M4 excluding intermediate OFCs (M4ex)', available at [www.bankofengland.co.uk/statistics/Documents/ms/articles/art1sep10.pdf](http://www.bankofengland.co.uk/statistics/Documents/ms/articles/art1sep10.pdf).
- 7 Following a change in the compilation and descriptions of some credit series, data for M4 lending (M4L) and M4 lending excluding the effects of securitisations and loan transfers (M4Lx) are identical for January 2010 data onwards. From the publication of April 2015 data, only one of these series - M4Lx (renamed as M4L) – continued as part of our regular publications. For more details see *Bankstats*, April 2015, 'Changes to the treatment of loan transfers and lending to housing associations', available at [www.bankofengland.co.uk/statistics/Documents/ms/articles/art1apr15.pdf](http://www.bankofengland.co.uk/statistics/Documents/ms/articles/art1apr15.pdf).

### Part one: broad money and credit

- 8 In Tables A and D, intermediate other financial corporations (OFCs) are defined as non-bank credit grantors; mortgage and housing credit corporations; bank holding companies; securitisation special purpose vehicles and other activities auxiliary to financial intermediation. Sterling deposits from and sterling loans and advances to 'other financial intermediaries' undertaken with banks and building societies in their own financial group are also included in intermediate OFCs. Banks' and building societies' holdings of securities issued by their own securitisation vehicles are also included in intermediate OFCs.
- 9 In Table B, households are defined as individuals, unincorporated businesses other than unlimited liability partnerships (i.e. sole traders) and non-profit institutions serving households (e.g. charities and universities).
- 10 M4 excluding intermediate OFCs is calculated as households' M4 (seasonally adjusted) plus private non-financial corporations' (PNFCs') M4 (seasonally adjusted) plus non-intermediate OFCs M4 (seasonally adjusted). For more details see [www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/m4adjusted.aspx](http://www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/m4adjusted.aspx). M4L excluding lending to intermediate OFCs is calculated as household M4L (seasonally adjusted) plus PNFC M4L (seasonally adjusted) plus non-intermediate OFCs' M4L, (not seasonally adjusted). For more details see [www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/m4lxadjusted.aspx](http://www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/m4lxadjusted.aspx). Following a review of the seasonal adjustment method for non-intermediate OFCs, changes were made to the seasonally adjusted measures of M4 and M4 lending. The changes are detailed in *Bankstats*, October 2013, 'Modifications to the seasonally adjusted measures of M4 and M4 lending excluding intermediate OFCs', available at [www.bankofengland.co.uk/statistics/Documents/ms/articles/art1oct13.pdf](http://www.bankofengland.co.uk/statistics/Documents/ms/articles/art1oct13.pdf).
- 11 In Table F, the definition of the industry categories follows the Standard Industrial Classification (SIC 2007) and is consistent with the broad industry categories employed by the Office for National Statistics (ONS). Within 'business services', real estate is defined as the 'buying, selling and renting of own or leased real estate' plus 'real estate activities on a fee or contract basis', corresponding to SIC codes 68.1, 68.2 and 68.3. 'Government and other services' comprise ONS divisions O to T (e.g. as published in the ONS Blue Book 2012), which include total government, health and education, and

'other services'. This table excludes intra-MFI sector balances. More detailed industry-level breakdowns of deposits and loans are provided in *Bankstats* tables section C, at [www.bankofengland.co.uk/statistics/Pages/bankstats/current/default.aspx](http://www.bankofengland.co.uk/statistics/Pages/bankstats/current/default.aspx).

For more information on the data classifications, see Parts IV.1 and IV.2 of the Classification of Accounts Guide available at [www.bankofengland.co.uk/statistics/Pages/reporters/default.aspx](http://www.bankofengland.co.uk/statistics/Pages/reporters/default.aspx).

## Part two: lending to individuals

- 12 In Table I, approvals secured on dwellings are measured net of cancellations. Additional monthly gross approvals and cancellations data are available on the IADB. See Technical Note 1 for more details.
- 13 The consumer credit data in Tables J and K include input from the Office for National Statistics. Historical data and additional data not presented here can be accessed from [www.ons.gov.uk/ons/index.html](http://www.ons.gov.uk/ons/index.html). Further information on breaks and valuation in consumer credit data can be found at [www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/ltot.aspx](http://www.bankofengland.co.uk/statistics/Pages/iadb/notesiadb/ltot.aspx).
- 14 Student loans are excluded from the measures of consumer credit presented in this statistical release. Data on UK student loans are published on an annual basis by the Student Loans Company, see [www.slc.co.uk/official-statistics.aspx](http://www.slc.co.uk/official-statistics.aspx). More information is provided in *Bankstats*, July 2012, 'A new measure of consumer credit', available at [www.bankofengland.co.uk/statistics/Documents/ms/articles/art1jul12.pdf](http://www.bankofengland.co.uk/statistics/Documents/ms/articles/art1jul12.pdf).
- 15 The definition of lending to individuals presented in this statistical release does not include lending to housing associations. For further details see *Bankstats*, April 2015, 'Changes to the treatment of loan transfers and lending to housing associations', available at [www.bankofengland.co.uk/statistics/Documents/ms/articles/art1apr15.pdf](http://www.bankofengland.co.uk/statistics/Documents/ms/articles/art1apr15.pdf).

## Part three: lending to businesses

- 16 Table L shows available data for finance raised by UK PNFCs. The scope of this table includes sterling and foreign currency loans from MFIs, and finance raised through the issuance of sterling and foreign currency equity, bonds and commercial paper in capital markets. Certain sources of finance of PNFCs will be outside the scope of available data for this table, for example, loans advanced by non-UK resident banks or privately raised capital.
- 17 Tables M, N and O cover MFIs' loans to UK non-financial businesses split by business size. The definition of 'non-financial businesses' is consistent with the non-financial industry sectors presented in Table F. Gross lending is defined as loans and advances (including claims made under sale and repurchase agreements) and finance leases granted to UK businesses. More information on the data sources underlying these tables is provided in *Bankstats*, March 2012, 'Lending to Businesses – a new data source', available at [www.bankofengland.co.uk/statistics/Documents/ms/articles/art2mar12.pdf](http://www.bankofengland.co.uk/statistics/Documents/ms/articles/art2mar12.pdf).
- 18 A broad description of the lending to businesses measures in Tables C, L, and M, N and O and the main differences between them is provided in *Bankstats*, August 2014, 'Measures of lending to UK businesses', available at [www.bankofengland.co.uk/statistics/Documents/ms/articles/art1sep14.pdf](http://www.bankofengland.co.uk/statistics/Documents/ms/articles/art1sep14.pdf). A summary of the known available data on measures of lending to UK small and medium-sized enterprises is provided in *Bankstats*, January 2015, 'Data on lending to UK SMEs', available at [www.bankofengland.co.uk/statistics/Documents/ms/articles/art2jan15.pdf](http://www.bankofengland.co.uk/statistics/Documents/ms/articles/art2jan15.pdf).
